

the importance of being nobody . . .

e. e. cummings (he spells it that way!) reading his highly controversial poetry to a nearly full house at Kresge Auditorium Monday evening.

Cambridge Skyline Object of MIT, Harvard Plot; Preliminaries Begun

Harvard and MIT have joined forces with some forward-thinking Cambridge citizens to overcome the local housing problem—and to improve the decrepit appearance of the city's riverfront acreage. The solution, proposed largely is an attempt to prod the City Fathers to similar action, will be in the form of an eleven-story-plus-penthouse apartment building on the Charles River across from the Harvard Business School.

The "New MIT" The new building, which is now in the preliminary planning stages, will, along with the two twelve-story Harvard dormitories recently proposed for the same general location, mark the beginning of an architectural revolution in Cambridge, which may in the future see a thorough revamping of the MIT river frontage. According to Malcolm Rivkin, the Institute's Planning Officer, cost estimates for the "new MIT" should be ready this weekend; if so, architects will probably begin work next week on a scale model which will include, besides the existing buildings, the proposed living units, academic and administration buildings, parking facilities, student union, etc.

Rough sketches and cost estimates are being made at the present time for the new apartment building, and plans for this also should be begun next week if the preliminaries are approved by the five-man steering

Individualism Must Go Says Moscow In Educational Revamp

A proposed "reform" of Soviet education aims at stamping out individualism and non-conformity among Soviet youth, according to Radio Liberation, which broadcasts Western propaganda around the clock to all parts of the Soviet Union, in Russian and 17 other Soviet languages, from powerful transmitters in West Germany and the Far East.

These reforms in the Soviet education system are part of Khrushchev's latest pet project. The new scheme is to include the following: (1) An additional year added to the present 7-year general schooling. (2) Establishment of the new Soviet boarding schools, which Moscow believes to be the ultimate school of the future.

(3) Greater control of education by the State will allow State planning of the total labor force in years to come. (4) A re-education program for many of the 2,000,000 USSR teachers. (5) Better testing procedures for student candidates for top Russian technical schools. Choice is

(Continued on page 3)

committee, composed of a representative from MIT, one from Harvard, and three leading Cambridgites. The hundred-unit dwelling will be open to the general public, but special consideration will be given Harvard and MIT faculty and students. The units will largely be two-bedroom, \$150 per month apartments, similar to those at 100 Memorial Drive. The dwellers will have to supply an equity, but this, combined with the payments on the mortgage, will result in a sizeable kickback on their federal income tax, because of the interest involved. Rather than paying rent, they will be paying off a mortgage. As a result, after a certain number of years, they will own the apartment. During the interlude, if they so desire, they can sell their apartment and get back the equity.

Outing Club Injury On Katadin Climb Takes Long Rescue

Tragedy marred MIT Outing Club's annual Thanksgiving climb at Mt. Katahdin, Maine, when Bill Miskoe '60, slid and tumbled over 100 feet down a steep headwall onto rocks below, breaking his pelvis and sustaining kidney injuries.

The club had arrived at Chimney Pond, elevation 2,900 feet, on Thanksgiving day, setting up a base camp there. On a bright, clear Friday morning the party set out for the peak via "Saddle Trail". A four-inch layer of snow coated the ground. The accident occurred during the descent to camp after reaching the 5,260-foot summit of the mountain.

The geology major had been aiding novice climbers as they negotiated an ice covered headwall clinging to a 200-foot rope. As the last novice climber traversed the ice covered face to a safe snow patch, Miskoe, along with companion Walter Godchaux '60, began the descent, chopping ice steps as they edged down the mountainside.

Suddenly, both men began sliding as they crossed a slippery patch. Godchaux managed to arrest himself with his ice ax, but Miskoe's ax was apparently wrenched from his hands as he tried desperately to stop his fall. He slid faster and faster down the nearly vertical face, striking and tumbling over the treacherous rocks below.

A rescue party reached the injured climber as early evening shadows began to settle over the mountainside. While Miskoe was covered with sleeping bags, two men rushed to the base camp at Chimney Pond, securing a mountain litter.

Tech Activities To Get \$46,631 For The 1958-59 Annual Budget

A budget totaling \$46,631 has been awarded the MIT Undergraduate Association for the year 1958-1959. Approved last month by the Finance Board, the new budget showed increased allotments to activities to the tune of \$7,000 over last year's expenditures.

The overall allotment to the Association is slightly lower than last year, however, due to a decrease in the number of undergraduate students this year, each of whom contributes \$13 as part of his general fee. Yet despite this decrease in total allotments, a reserve fund has been substantially supplemented so as to meet rising costs and inflationary trends, since the \$13 donation per student will continue in effect despite spiralling prices.

\$23,930 Awarded Activities

Activities were awarded a total of \$23,930. Of these, Technology Community Association received \$11,000; Institute Committee and its various sub-committees received \$14,180; while \$9,500 went into reserves for various purposes, such as travel funds and capital equipment purchases.

Activities had requested \$42,374, but found themselves with \$4,264 trimmed off by the Finance Board. The board, after careful consideration in each case, grants monies to activities on the basis of their operation's benefit to the MIT community as a whole, according to Chuck Staples '59, Chairman.

JP, SW Voting Marked by Ill-Run Elections; Classes' Minorities Win

In last week's elections, ten seniors and five juniors were officially elected to the '59 Senior Week and '61 Junior Prom Committees, respectively.

Because of his position last year as Junior Representative to Senior Week Committee, Rich Simons, Lambda Chi Alpha, will serve as a member of the SW Committee. Although tradition has automatically made the previous JRSWC the chairman of the group, Simons has deferred the dubious honor to another member of the group who will be chosen at the first meeting. Those elected were:

John Christie.....Phi Delta Theta
Mike DrewDelta Upsilon
Bob KeeneDelta Upsilon
Al KniazehPhi Gamma Delta
Kent Kresa

George LangfordDelta Upsilon
Hank SiltanenDelta Upsilon
Roger TravisPhi Kappa
Chris WardDelta Upsilon
Glenn Zeiders.....Phi Delta Theta

A sixth member of the JP Committee will be chosen when the class elects its new prexy, since one of his duties is JP Chairman. The JP elected group, listed below, can choose sev-

eral more members if they wish:

Peter Burleson.....Phi Gamma Delta
John Disbrow.....Phi Delta Theta
Dorsey DunnLambda Chi Alpha
Ira JaffeAlpha Epsilon Pi
Miss Marla Moody.....Bexley Hall

Editorial

For years, as in our national elections, it has been the custom for voters to avoid the polls on election day. For a student group, the MIT men (and women) have set in past elections, particularly this one, what are probably record lows in voting—and aspiring for elective offices. You ask for facts? About 125 seniors and 275 juniors, both out of classes of close to 900, bothered to go to the polls. While SW took ten and JP took five candidates, little more than these same numbers applied for the offices, including write-ins. The students at the Institute, I realize, are too busy to worry about these minor details of democracy—as possibly are the members of the group that planned the thoroughly fouled-up elections, e.g. names that appeared on the ballots that should not have been there. These elections did only decide members of social committees of sorts, but they did, nevertheless, conform to the normal lackadaisical pattern. MIT requires study and hard work—but there's more to living than simply following one's profession.

News Director

Annual TCA Charity Drive Starts Dec. 9; Slipstick Reveals All

On December 9, 10, and 11, T.C.A. representatives will be calling on Techmen to give to the annual T.C.A. Charities Drive. Solicitors for the four charities selected will be aided by a "Slide rule" in Building 10 which will denote progress towards the \$7,600 goal.

The seven-foot slipstick, to be presented to the living group making the largest per capita contribution, contains scales providing the vital statistics of any coed. As the money contributed mounts, so does the center slide, revealing a scantily-clad beauty. Attainment of the mark of \$2.00 per student will reveal all.

The World University Service, the United Fund, Care, and The Heart Association are the four charities to which students will contribute, designating which one will receive their contribution.

Past drives, which collected about \$.50 per student, in contrast with the average of six dollars of neighboring institutions, were unsuccessful in part because persons living outside the dorms did the collecting. This year, individuals living in a house will do the soliciting in that house, except for East Campus, which will be covered by DeMolay.

The Student Union Committee's request was cut slightly since the Board felt that the building of a student union was not close at hand, and the full worth of the convention was not enjoyed by the undergraduates. Also shaved was Beaver Key's request for freshmen team-feedings money. It was felt that, while freshman team-feedings are a very worthwhile activity, the additional expense was not as beneficial to the Undergraduate Association as it was to MIT in general, since many of the teams played are prep schools. The Board urged that Beaver Key take steps to obtain additional funds from the AA, or directly from the Institute.

Greater Reserve Funds

Included in the increased reserves is a \$3,500 contingency fund available to newly formed activities; a \$3,000 capital expenditures fund, existing for the purpose of supplying eligible groups on campus with funds necessary for the acquisition of capital assets; a \$1,000 good will and service fund, set up to include items which are not legitimate requests under Ins-comm By-Laws but at the same time are a benefit to the MIT Community; a \$2,500 loan fund for Tech Show (\$2,000) and Glider Club (\$500) and a travel expense fund of \$1,000.

According to Chuck Staples, the increase in money available to the various activities should considerably strengthen their functions, make them more significant to the MIT undergraduate, and increase their value to the community.

WINTER SPORTS

See pages four and five for previews of MIT winter athletics plus an on-the-spot account of the varsity cagers' resounding opening game victory over Bowdoin, Wednesday night.

Spurred on by sirens and the smell of smoke, axe-flailing Cambridge firemen launched an attack on this blazing Westgate house Wednesday. Much wrenching of boards and splintering of glass pierced the air as the unit met its inevitable, but slightly premature, end. Just how clever is the budget conscious Institute? Matches are a budget's best friend!

CLIMB

(Continued from page 1)

Using the litter, rotating six man teams carried him to the campsite, arriving after dark, where he was placed in a warm emergency shelter. The remainder of the climbing party occupied an open leanto near the pond.

That night, as Miskoe lay in pain and shock, the temperature of the cold mountain air dipped to a 5 F. Under a driving wind, a blizzard began pelting the mountainside, building into a 12-14-inch snowfall before sunrise.

Early Saturday morning the party loaded Miskoe onto a toboggan found at the emergency shelter, and began the tedious 1/2-mile descent to the nearest road. But once he was there, Miskoe's ordeal was still far from

ending, for the heavy snowfall had immobilized all transportation.

After four hours of digging, Outing Club members managed to send the MIT student on his way in the back of one of the club's old-fashioned hearses. The climber was transferred to a jeep partway to the hospital, and later to an ambulance for the final leg of his journey. He arrived at the hospital just 26 hours after his accident.

Miskoe was expected to return to Boston late this week. At last word, he was reported in good condition in a Maine hospital.

The slope where the fall occurred faces due East; receiving the intense heat of the sun during the morning hours, but receding into shadows by mid-afternoon, when the moist snow surface freezes into a glaze of ice.

SOVIET EDUCATION
(Continued from page 1)

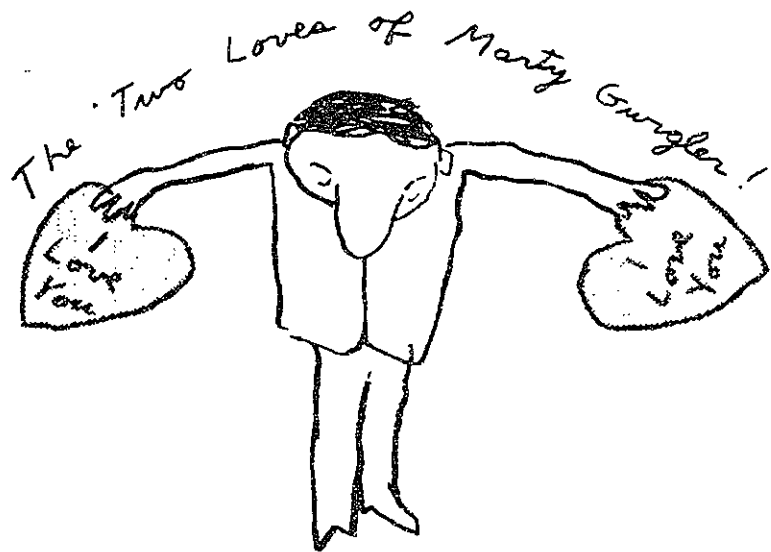

to be based on the whole personality profile of the individual—not test scores alone.

(6) Vocational schools will operate as going businesses. Workshops and model farms will not be mere training exercises, but will provide finished goods which can be marketed.

(7) Primary task of institutions of higher learning will be the education of scientists, researchers and teachers.

Prime consideration of the new system seems to be a deep concern over the failure of Soviet education to produce "the new Soviet man". A vigorous effort is to be made toward compulsory re-education, in a short time, not only of Soviet youths, but of their parents.

If individualism is really a danger to Communism, then the new school reform is well conceived, says the report. But it sets forth a system of education so standardized and so demanding of conformity that the individual is lost in a massive machine.

The problem was not that Marty had fallen in love with a shirt. After all, he was a Philosophy major.

The trouble was... Marty was in love with two shirts.

With Shirt No. 1, the Van Heusen Century, the serious Marty spent hours in heavenly bliss. He worshipped the revolutionary soft collar that won't wrinkle ever. It was Century's one-piece construction that drove him wild. (Other collars never did anything for our boy Marty, except wrinkle madly. You see, other collars are three pieces, fused or sewn together.)

With Shirt No. 2, the amazing Van Heusen "Vantage," the gay, frivolous Marty lived the life of carefree abandon. He

could wear it and wear it—wash it—drip-dry it, or have it tumble-dried automatically—and wear it again in a matter of hours. It was the most money-saving love he ever had.

But when Marty was with one shirt, he missed the other. It was terrible. Like so many others with the same problem, Marty wrote to us. And so it came to pass that the Van Heusen "Century-Vantage" was born. This shirt combined the advantages of each into one great shirt—a wash and wear, no-iron, all cotton broadcloth shirt with the soft collar that won't wrinkle ever! And just \$5! Have you a problem? Write Phillips-Van Heusen Corp., 417 Fifth Avenue, New York 16, New York.

DRINKERS, UNITE!

A top-notch band and three bars over-flowing with liquid goodies will be the featured attractions when the cocktail glasses are raised on high tomorrow afternoon at the Phi Delta House from 4 to 6:30. Every undergraduate, from the lowliest frosh in the darkest 8.01 lab to the most stalwart senior plodding through his thesis, is invited to this gala affair. "Meet under the Phi Delta moose!" Stag or drag, get the best in entertainment and the best in (40c) drinks there.

FLYING CLUB

There will be an organizational meeting of the Flying Club at 7:30 p.m., Thursday, Dec. 11, at The Tech offices in the basement of Walker Memorial. All are welcome. License or previous experience is not required.

Fitzgerald Sings Here In January

The Baton Society will sponsor an "Evening with Ella Fitzgerald" on January 16 in Kresge Auditorium. She will be accompanied by a three-piece instrumental band.

Her repertoire will consist of Blues, Jazz, and Dixieland.

Ella Fitzgerald recently returned from a tour of Europe and is presently conducting a trip of several weeks through the West Coast area. Her appearance at MIT will be among the first of a series of engagements in the East. She is scheduled to appear on the Jack Benny TV Show shortly before she comes to MIT.

Called "America's First Lady of Song," her most recent recording is a two-record album with selections from Irving Berlin's Songbook. Her great popularity has been attributed to her fine musical ability and luminous lyricism which allow her to make variations on melodies that often make composers envious to have

not thought of the variations before.

The Baton Society expects tickets to be sold out before Christmas vacation. Tickets will go on sale beginning next Monday. Four prices of tickets will be offered: \$2.00, \$2.50, \$3.00, and \$3.50. The Baton Society, besides having its regular function of organizing the musical groups, also attempts to fit musical programs into the MIT campus.

APO Chooses New Officers; Plans An All Tech Carnival

Alpha Phi Omega Fraternity has announced the results of its fall elections. James Cobb '60, was chosen President; Patrick Spangler '60, Membership Vice President; David Staelin '60, Service Vice President; Millard Firebaugh '59, Fellowship Vice President; Barry Bronfin '60, Treasurer; Martin Falxa '59, Recording Secretary; John Eklund '60, Corresponding Secretary; Sam Williamson '59, Historian; and Craig Tedmon '59, Alumni Secretary.

The new president has reported that APO will concentrate its efforts on two major projects for the remainder of the year: the annual swim program for Cambridge Boy Scouts, which will be held in the MIT Alumni Pool, and the all-school carnival to be held in the spring.

Choral Society To Sing With Juilliard Strings To Follow

On the next two Sundays two major concerts will be given in Kresge Auditorium. The MIT Choral Society will present "The Fairy Queen" this Sunday at 3 p.m. and the second Humanities Series Concert of the season will be presented at the same time the following Sunday by the Juilliard String Quartet.

The Choral Society will be accompanied by a small orchestra and will be conducted by Klaus Liepmann. The music to be performed was written in the form of masques which are solo songs, dances, and choruses set among elaborate stage machinery which provides entertainment between acts of a drama. Soloists will be Helen Boatwright, soprano; Margaret Tobias, alto; Richard Gilley, tenor; Paul Matthen, bass. Robert Brink will be concertmaster; Daniel will play the harpsichord and Roger Voisin, the trumpet. Remaining tickets for "The Fairy Queen," an anonymous adaptation of Shakespeare's "A Midsummer Night's Dream," will be sold at the door for \$1.50.

The Juilliard String Quartet, often called "the premier American quartet," is composed of Robert Mann, first violin; Isodore Cohen, second violin; Raphael Hillyer, viola; Claus Adam, cello.

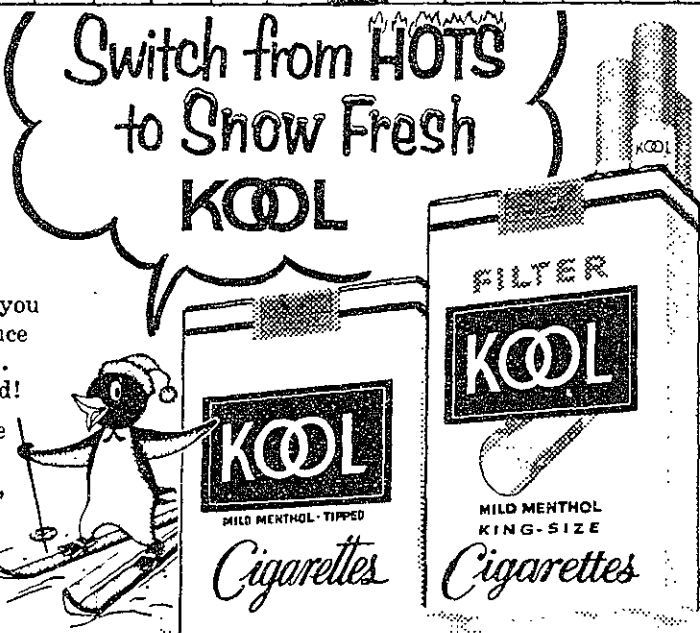

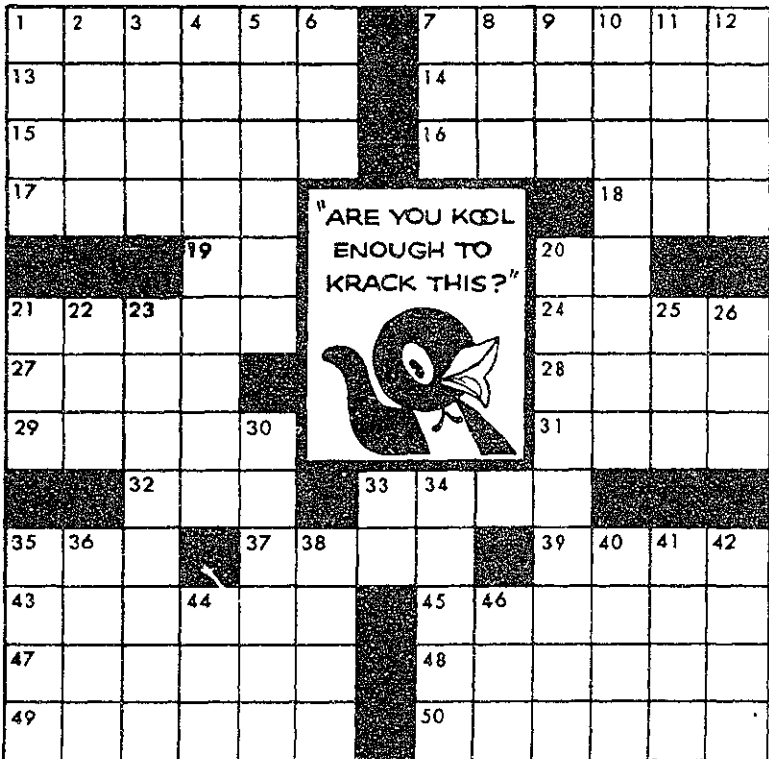

PRC Organizes All Activities; Provides Free Publicity Too

Free publicity for all meetings and special events of MIT activities is now being provided by the Public Relations Committee in a move that is coordinating all activities scheduling so that there is one place for heads of activities to check for conflicts and for students to learn of all the events occurring in the MIT Community.

To schedule an event, an activity need only call the receptionist in Litchfield Lounge, X3680. The list of activities for the week will be published by *The Tech*, posted on the main bulletin boards, broadcast by WTBS, and made available to anyone calling X3680 or coming into the Institute Committee Office, first floor of Walker Memorial.

MIT HOOPSTERS VICTORIOUS AS

Schedule Begins For 10 Sports Varsity Cagers Smash Bowdoin, 75-57 Morrow Tallies 28 Points To Pace Win

With the first flakes of snow this week, there was a flurry of athletic activity at MIT as ten varsity and six freshman intercollegiate squads prepared for the winter season. Athletic Director Richard L. Balch announced that these Beaver teams will compete in 158 events during the forthcoming months. Thus Tech sports fans will get a chance to witness much more action than they were able to view this autumn when there were only three varsity and three yearling teams under way.

Both basketball and hockey begin this week. The pucksters face Army tomorrow afternoon at West Point while the cagers, fresh from their Wednesday evening romp over Bow-

Harrier Captain

Bob Mullen '60 and Dan Oliver '60 were elected co-captains of the 1959 cross country team at the annual cross country awards dinner held recently. Both were consistently high scorers for this year's harriers. Mullen was captain of the 1958 hill and dalers and has lettered twice in the sport. Oliver is also a double letterman.

doin, take on Trinity at 8:15 p.m. in the Rockwell Cage. Preceding the varsity hoopsters' encounter, the frosh will meet the Hartfordmen's first-year squad.

The Engineers have been very successful to date with firearms as both the pistol and rifle teams are undefeated in early season matches. Both of these talented delegations are potential champions.

Many Openers Tomorrow

There will be four other season openers tomorrow when the squashmen, swimmers, wrestlers and fencers unveil their 1958-59 editions. The racqueteers meet Dartmouth at Hanover; the mermen will splash against Bowdoin in Maine; the matmen grapple Tufts in Medford, and the duelers meet Bradford Durfee in Walker Memorial at 2:00 p.m.

MIT's other two winter varsity entrants are the skiers and the indoor trackmen. The boardmen begin competition next Saturday, however, the slalom men won't see action until January 24.

In all, this should be one of the finest winter sports seasons in Tech history and will provide many thrilling events.

Hugh Morrow '60, scored from all over the court as MIT's varsity basketball team opened its 1958 season on a successful note by defeating Bowdoin 75-57 last Wednesday evening in Rockwell Cage. Morrow, who finished with 28 points to lead all scorers, was unstoppable. Time and again his soft fade away jump shot swished through the hoop for two points.

Bowdoin however, drew first blood, as Bob Scott hit a set shot from twenty feet just after the initial tip off. MIT came right back with Bob Polutchko '59, captain of this year's varsity, sinking a one handed jump shot from just outside the free throw circle. The game continued on an even keel until 10 minutes of the first half remained. Then MIT went on a scoring spree which featured the deadly shooting of Morrow and guard Lee Cooper '59. Morrow tossed in a long jump shot from the corner and after Bowdoin missed on the subsequent shot, Cooper netted two sets in a row to give the victors a 15-8 lead.

Beavers Widen Gap

But the Engineers' drive was not yet over. Morrow took a quick pass from Polutchko and drove in for the score. A sloppy Bowdoin pass returned the ball to Tech and this time it was Cooper who entered the scoring column for the third time. Following a basket by Simonds of Bowdoin, Morrow again exhibited his talent as he connected on a turn around jump shot making the score 21-10, a lead which the victors never relinquished.

MIT continued to score as Bob Polutchko took charge. The captain drove in for a quick two pointer, but at this point Bowdoin began to fight back. Led by the shooting of guard Dick Simonds, who wound up the evening with 23 points, the Polar Bears began to shoot from the outside with fairly regular success. However, with the score 28-19, Polutchko, Morrow, and Cooper poured in five baskets while the black and white could muster only two. Then the roof collapsed on the Beaver five.

Bowdoin Fights Back

Bowdoin, still keeping to the outside began to score with deadly accuracy. Simonds hit a long 40 foot set shot and two free throws. Brad Willey, fouled on a layup which he converted,

MIT's varsity basketball squad is shown in practice early this week preparing for Bowdoin

connected on the free throw to cap the three point effort. MIT could not find the range as repeated shots rebounded off the rim into enemy hands.

Having forced the Beaver's zone defense to come out, the Polar Bears' Scott worked his way behind the MIT pivot man and on two quick feeds poured in four points to bring the score to 35-33 as time ran out in the first half of play.

Beavers Control Boards

MIT's rebounding percentage prior to the intermission was quite good as the Beavers' Robinson '61, and Dennis McGinty '59 controlled both boards. Unfortunately, McGinty picked up four personal fouls in the process and was forced to exercise extreme caution throughout the remainder of the contest.

The second half was all MIT. Morrow, Robinson and Cooper all scored in less than a minute of play. Bowdoin countered with buckets by Simonds and Scott but not before Robinson, Polutchko, and Cooper all hit for the victors. The men from Maine continued to feed Simonds and Scott and these men accounted for most of the Bowdoin scoring during the first ten minutes of the second period.

At 13:52 of the second half, Sim-

onds fouled out and the Beavers proceeded to break the game wide open. It was Mr. Morrow leading the attack as he garnered 11 of his 28 points in the waning moments.

Polar Bears Begin to Press

In a desperation move Bowdoin switched to an all court press. The engineers however, were ready and quick passing and alert dribbling enabled them to easily break through the defense. The guarding was close and the tempers hot. During a scramble for a loose ball between Polutchko and Walsh a mild altercation developed which resulted in a technical foul against the losers.

Leading 65-53 with 3:33 remaining, the MIT five went into a stall as they worked the ball around the outside passing up several good opportunities to score. With time running out, the victors once again took the lid off the basket and climaxed the evening with a fast 10 point effort.

Team's Outlook Bright

Judging from the opening performance it would appear that the team is in for a highly successful season. The fine rebounding of Robinson, McGinty and Polutchko seems to be the answer to a long standing problem. This, coupled with the sharp shooting and floorwork of guards Morrow and Cooper and the hard driving layups of Polutchko, will provide solid opposition for all of this season's opponents.

The squad's next home appearance is this Saturday evening against Trinity at 8:15 p.m. in Rockwell Cage. If Wednesday's crowd is any indication of future attendances, the home boys will be well cheered throughout the season.

SPACE COLLOQUIUM

Different facets of the space age will be discussed Tuesday, December 9, in a colloquium sponsored by the Political Science Section of the Economics Department, "Industrial, Government, and Private Organizations Involved in the Development of Space Technology." The discussion will be open to the public.

RETARDED CHILDREN

The Greater Boston Foundation for Retarded Children has asked MIT for help. Donation containers distributed during their drive to stores in this area must be collected Saturday, December 6. If interested in helping, contact TCA, Ext. 885.

Matmen Grapple Tufts Tomorrow Lack of Veterans Dims Prospects

Plagued by injuries and academic interests preventing veterans from returning, the MIT varsity wrestling team has no lettermen back from last year's winless squad. Consequently, the grapplers will have to rely on a relatively inexperienced crew formed almost entirely of sophomores.

The matmen open the season tomorrow afternoon with Tufts in Medford. The remainder of the schedule pits the Beavers against Wesleyan, University of Massachusetts, Harvard, Coast Guard, Dartmouth and Springfield, all of whom gained victories against MIT during the 1957-58 meets.

Beaver Line Up

The tentative Cardinal and Gray lineup for tomorrow's encounter has been announced. Ted Schultz '59 will represent the Engineers in the 123-lb. class. Andy Bulfer '61, second in New England in the 130-lb. division as a freshman last spring, is one of the brightest spots on the roster. Another is Dave Latham '61, who was third best 137-pound frosh in NE. The 147-lb. post has not been definitely decided yet, but as we go to press, it appears that the MIT grappler will be either Jim Gross '61 or Jim Wishart '59. At 157 lbs., John Sullivan '61 will take on the Tufts grappler in this class. Reed Freeman '61, a mainstay of last season's yearling aggregation, will compete in the 167-lb. class. Moving up, Bob

McCullough '60 will wrestle the Jumbos' 177 - lb. contestant. Finally, Tech's battler in the unlimited division seems to be a tossup between Crane Zumwalt '60 and Jack Smith '61.

Coach Alex Sotir has been working hard with the more or less untested squad, and when one considers the huge sophomore turnout, it appears that the varsity grapplers will improve throughout the season and with most of the squad returning for two more years, the somewhat distant future looks bright.

Frosh Mat Squad Weak

Although there are about 20 members of the Class of 1962 out for wrestling, there is a serious lack of manpower in the lowest three weight classes. Coach James Maloney is quite concerned about these open positions. To date, the only probable starters for tomorrow's match with the Jumbo freshmen that are known are in the upper weight divisions. Max Snodderly will see action in the 147-lb. class. In the next higher division, Tech will be represented by Greg Brown. Dick Shirley and Paul Olmstead are both hopeful of gaining the 167-lb. spot. In the unlimited battle, it looks like Bob Sharp will be the Beaver grappler.

Both squads will have their home openers next Friday night at the Rockwell Cage with Wesleyan.

THE GREAT GUNSBY

How vulnerable we all were, the lost and glittering people who attended the biggest party J. Gunsby—my neighbor in West Bacon, Long Island—ever gave. It was held in honor of my cousin, Peony Warren. Gunsby was in love with her. In the five years since he had last seen Peony, she had become the symbol of all things rare and worth possessing.

The day of the party Gunsby came by, apologetic, distraught. "Tell me, old boy," he said, trying to be offhand, "What is your kind of beer, anyway? I want to order some." I knew he was really asking about her kind of beer and, even more, what kind of beer was fashionable in the sleek and narrow world he tried so hard to call his own. "Schaefer," I said. "Experts call it round because it has a smooth harmony of flavors." Gunsby smiled at me as if all his old, forsaken dreams were suddenly within his grasp. "Why, that's my kind of beer!" he cried and hurried away.

Two orchestras were set up in Gunsby's formal gardens when Peony and I arrived, playing all the sweet, sad songs that haunted that uneasy summer. We made our way through swarms of bright and brittle guests and found Gunsby alone, staring out over the dark bay. I called his name. He turned, trembling, and the pure white foam that topped his glass of Schaefer spilled to the marble terrace and lay frozen in the moonlight. Peony said, "Hello," and the word was a silver bell sounding a note that no one else had ever heard before. "Good heavens," Gunsby said, "this isn't my Peony Warren, old boy. Never saw her before in my life!" We stood there a long moment, completely vulnerable, brought to bay by a pack of dreams. Then Gunsby made a pathetic little bow and strode away.

"How sad," Peony said lightly, taking a golden glass of Schaefer from a golden tray. "Can't we play some games now?" I stared at her, appalled by all things shallow and beautiful. After a time I found Gunsby, paddling morosely round and round on a rubber raft in his pool. He was all alone. I raised my glass of Schaefer to him and whispered, "The poor guy. The poor, vulnerable guy."

win this title this year. With returning lettermen Dwight Moody '59, Louis Nelson '59, Bob Voight '59 and Martin Zimmerman '59, they should do quite well against their toughest opponents, namely, Army, Navy and USCGA. A great boost to the team this year should be returning riflemen Don Vaughn '59 and Dan Schwartz '60. Coach Bigham is no newcomer to the rifle team. Last season he was assistant coach under Army Master Sergeant Robert Mattson. Having great material to work with this winter, he should produce a top team.

includes such formidable opponents as Boston College, Army, Bates College, University of New Hampshire, and University of Connecticut, the team can be expected to steadily improve under the tutelage of their new mentors, Art Farnham and Al Sotir. Coaches Art Farnham and Al Sotir both emphasize the fact that there is still ample room on both freshman and varsity squads, notably in man and varsity events, for all those interested and willing to workout. They are available every afternoon at Briggs Field.

READ THESE TERRIFIC "SUPER-7" SPECIFICATIONS:

Brand new and RADIO SHACK'S greatest achievement in transistor radio! Remember our internationally famous "LITTLE SIX"? It amazed and delighted more than 25,000 purchasers. Well, our "SUPER 7" is LITTLE SIX improved. Now there are SEVEN transistors plus a crystal diode . . . and they're so dependable and trouble free they're soldered into the circuit. There's a larger and higher Q ferrite loop stick that increases sensitivity and selectivity. There's a transistor second detector and dual AGC circuit. Altogether sensitivity has been increased about 2 1/2 times to make it equal to . . . and in many instances superior to . . . the average home radio. For better tone quality, there's a larger output transformer than the average transistor radio . . . and the speaker has greater sensitivity and range. And there's now a CLASS B output stage for greater volume and lower battery drain. Sh. wt., 3 lbs.

Page 4

MIT

Schedule B

With the first flakes of snow, there was a flurry of activity at MIT as ten or six freshman intercollegiate prepared for the winter season. Director Richard L. announced that these Beaver compete in 158 events during forthcoming months. The sports fans will get a chance much more action than were able to view this autumn there were only three or three yearling teams under.

Both basketball and hockey this week. The pucksters fought tomorrow afternoon at W while the cagers, fresh from Wednesday evening romp.

Harrier Cap

Bob Mullen '60 and Dan, were elected co-captains of cross country team at the country awards dinner held. Both were consistently high for this year's harriers. M. captain of the 1958 hill and has lettered twice in the sport is also a double letterman.

Wonderwood
MODELING WOOD
Models Like Clay But Dries Like Wood

"WONDERWOOD" is the most exciting new idea in modeling in years! It dries into REAL WOOD that can be cut, carved, sanded, stained or painted like natural wood! It handles like clay but is much easier to work... lighter to handle... and is completely non-toxic, non-irritating to tender skin. The set consists of three transparent plastic jars each 3 1/2" high and each containing a different color... red, blue, yellow... which can be mixed to form any color. All you do is add water to make a soft, easily worked modeling compound. It stays pliable when kept covered. It air-dries in 1 to 4 days. It can be oven-dried in hours. Lots of fun at BIG SAVINGS!

The discussion will be open to the public.

RETARDED CHILDREN

The Greater Boston Foundation for Retarded Children has asked MIT for help. Donation containers distributed during their drive to stores in this area must be collected Saturday, December 6. If interested in helping, contact TCA, Ext. 885.

How vulnerable people who at neighbor in W held in honor in love with seen Peony, s rare and worth

The day of t distraught. "T offhand, "Who to order some kind of beer fashionable in hard to call his round because Gunsby smiled were suddenly of beer!" he cr Two orchestra when Peony a songs that ha way through s found Gunsb out over the d his name. He t and the pure topped his gl spilled to the r lay frozen in Peony said, "

word was a silver bell sounding a note that no one else had ever heard before. "Good heavens," Gunsby said, "this isn't my Peony Warren, old boy. Never saw her before in my life!" We stood there a long moment, completely vulnerable, brought to bay by a pack of dreams. Then Gunsby made a pathetic little bow and strode away.

"How sad," Peony said lightly, taking a golden glass of Schaefer from a golden tray. "Can't we play some games now?" I stared at her, appalled by all things shallow and beautiful. After a time I found Gunsby, paddling morosely round and round on a rubber raft in his pool. He was all alone. I raised my glass of Schaefer to him and whispered, "The poor guy. The poor, vulnerable guy."

Measures 14 1/2" x 11" x 10 1/2"

The tentative Cardinal and Gray lineup for tomorrow's encounter has been announced. Ted Schultz '59 will represent the Engineers in the 123-lb. class. Andy Bulfer '61, second in New England in the 130-lb. division as a freshman last spring, is one of the brightest spots on the roster. Another is Dave Latham '61, who was third best 137-pound frosh in NE. The 147-lb. post has not been definitely decided yet, but as we go to press, it appears that the MIT grappler will be either Jim Gross '61 or Jim Wishart '59. At 157 lbs., John Sullivan '61 will take on the Tufts grappler in this class. Reed Freeman '61, a mainstay of last season's yearling aggregation, will compete in the 167-lb. class. Moving up, Bob

wrestling, there is a serious lack of manpower in the lowest three weight classes. Coach James Maloney is quite concerned about these open positions. To date, the only probable starters for tomorrow's match with the Jumbo freshmen that are known are in the upper weight divisions. Max Snodderly will see action in the 147-lb. class. In the next higher division, Tech will be represented by Greg Brown. Dick Shirley and Paul Olmstead are both hopeful of gaining the 167-lb. spot. In the unlimited battle, it looks like Bob Sharp will be the Beaver grappler.

Both squads will have their home openers next Friday night at the Rockwell Cage with Wesleyan.

Different facets of the space age will be discussed Tuesday, December 9, in a colloquium sponsored by the Political Science Section of the Economics Department, "Industrial, Government, and Private Organizations involved in the Development of Space Technology." The discussion will be open to the public.

RETARDED CHILDREN

The Greater Boston Foundation for Retarded Children has asked MIT for help. Donation containers distributed during their drive to stores in this area must be collected Saturday, December 6. If interested in helping, contact TCA, Ext. 885.

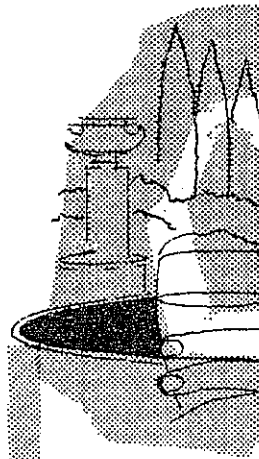

MIT

Schedule E

With the first flakes of week, there was a flurry of activity at MIT as ten or six freshman intercollegia prepared for the winter athletic Director Richard L. nounced that these Beaver compete in 158 events d forthcoming months. TI sports fans will get a charnness much more action were able to view this aut there were only three va three yearling teams under Both basketball and hoc this week. The pucksters f tomorrow afternoon at W while the cagers, fresh f Wednesday evening romp

word was a silver bell sounding a note that no one else had ever heard before. "Good heavens," Gunsby said, "this isn't my Peony Warren, old boy. Never saw her before in my life!" We stood there a long moment, completely vulnerable, brought to bay by a pack of dreams. Then Gunsby made a pathetic little bow and strode away.

"How sad," Peony said lightly, taking a golden glass of Schaefer from a golden tray. "Can't we play some games now?" I stared at her, appalled by all things shallow and beautiful. After a time I found Gunsby, paddling morosely round and round on a rubber raft in his pool. He was all alone. I raised my glass of Schaefer to him and whispered, "The poor guy. The poor, vulnerable guy."

COMPLETELY WIRED AT LESS-THAN-KIT PRICE!

The new Realistic "Stereo-36" hi-fi amplifier is the ideal choice whether you're "stereo" or "monaurally" inclined. It delivers a full 36 watts (72 watts peak!) when used in a monaural system... yet, just a twist of the Channel Mode Selector turns it into a full-fledged dual 18-watt (36 watts peak!) stereo amplifier and dual preamp Stereo Control Center! Laboratory-verified specifications compare with the finest! Power Output: 18 watts per channel (36 watts peak!). Freq. Response: 20-20,000 cps ± 0.5 db. Hum and Noise: 80 db down on high level inputs; 55 db down on Mag. Phono, 50 db down on Tape Head. Distortion: less than 1 db at full rated output! Sensitivity: (for full output) Phono — 2.5 mv., Tape Head — 2.5 mv., Tuner and Aux. 0.25 v. Operational controls include: Separate wide-range (± 12 db) bass and treble controls; Twin-section, single-action master volume control with loudness off-on switch; Channel balance control; Variable equalization control; Channel mode selector with indicator lights and rumble reduction setting for use on monaural records; 4-position input selector (Mag. Phono, Ceramic Phono, Tape Head, Tuner and auxiliary.); Speaker phasing switch. Has 4, 8 and 16 Ω outputs for each channel plus 2 low imp. outputs for direct input to tape recorder. Tubes include 5—12AX7 (ECC83), 4—6BQ5 (7189) and 1—GZ-34 rectifier. Amplifier is fully fused and has 2 convenience AC receptacles. 160 watts, 115-volts A.C. Faceplate is flat white with etched gold and maroon design. Furnished complete with brushed-gold finished metal cabinet that matched other Realistic High Fidelity products and enhances the appearance of any location. Modern low-slung design measures only 5 1/4" h. x 14 1/4" w. x 11 1/2" d. Ship. wt. 18 lbs. Order No. R-33CX505Y Realistic "Stereo-36" Sale! \$69.50 SHIPPED BY EXPRESS ONLY

EXCLUSIVE AT RADIO SHACK!

EXCLUSIVE AT RADIO SHACK, because cost-conscious Radio Shack knows how to use its 36 years of experience to produce the finest in high fidelity at the lowest possible cost! It's not done with mirrors... it's done with enormous purchases and the manufacturing "know-how" of Radio Shack's staff of design and production engineers. The new REALISTIC "STEREO-36" is one of the finest stereo monaural amplifiers on the market today! We guarantee it to be equal or superior, in specifications, performance and appearance to any similar amplifier costing up to \$130.00 or your money back!

win this title this year. With returning lettermen Dwight Moody '59, Louis Nelson '59, Bob Voight '59 and Martin Zimmerman '59, they should do quite well against their toughest opponents, namely, Army, Navy and USCGA. A great boost to the team this year should be returning rifleman Don Vaughn '59 and Dan Schwartz '60.

Coach Bigham is no newcomer to the rifle team. Last season he was assistant coach under Army Master Sergeant Robert Mattson. Having great material to work with this winter, he should produce a top team.

includes such formidable opponents as Boston College, Army, Bates College, University of New Hampshire, and University of Connecticut, the team can be expected to steadily improve under the tutelage of their new mentors, Art Farnham and Al Sotir.

Coaches Art Farnham and Al Sotir both emphasize the fact that there is still ample room on both freshman and varsity squads, notably in frosh field events, for all those interested and willing to workout. They are available every afternoon at Briggs Field.

The Bell Telephone Companies offer these fundamentals to hard-working, ambitious realists majoring in the arts, the sciences, business or engineering. Get the whole story regarding telephone careers. Talk with the Bell interviewer when he visits your campus. Ask him about training, advancement opportunities, salary, job security. We think you'll like what you learn.

BUY 2 FOR STEREO . . . AND SAVE!
Two AF-12 and one Stereo Master. Ship Wt. 26 lbs. Order No. RX-7243CAF12. Net \$69.95

Total redesign of the fabulously successful Realistic AF-12 . . . now complete with gold toned metal cabinet and ready for stereo! New 1959 AF-12 has pre-wired connection to our Stereo Master (see below). A second amplifier, plus the "Master" and you're in the stereo business. Each step in the creation of the AF-12 . . . from the design of its RIAA-equalized pre-amp to the winding of the oversized output transformer has been carefully supervised by RADIO SHACK'S own staff of engineers.

LABORATORY-VERIFIED SPECIFICATIONS — OUTPUT: Push-pull 12 watts (20 Watts Peak!) at less than 1% distortion. FREQUENCY RESPONSE: 20-20,000 cps ± 1 db. Built-in RIAA equalized pre-amplifier. TREBLE CONTROL attenuation — 18 db @ 18 kc. BASS CONTROL boost, 15 db @ 50 cycles, Hum 80 db below 12 watts. OUTPUTS: 4, 8 and 16 Ω. Jack for direct feed to tape recorder. INPUTS: Tuner, high imp. mike, crystal pickup, magnetic pickup. Convenience AC receptacle for auxiliary equipment. TUBES: 2-12AX7, 2-6V6GT, 5Y3. 10 1/4" W. x 6 1/4" x 6 1/4". Built-in AC power supply. Standard RETMA guarantee.

REALISTIC AF-15 DeLuxe 15-Watt AMP.

DELUXE FEATURES OF \$100 AMPS!

- ★ 15 Watts Output (30 Peaks!)
- ★ Bass and Treble Controls!
- ★ Loudness and Level Controls
- ★ Speaker Control Switch
- ★ Pre-wired for Stereo Control

\$66⁹⁵ \$5 Down, \$5 Monthly

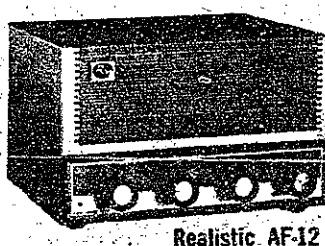

\$39⁹⁵ Order No. R-33CX005Y Wt. 15 lbs.

BUY 2 FOR STEREO . . . AND SAVE!
Two AF-15 and one Stereo Master. Ship Wt. 33 lbs. Order No. RX-7243CAF15. Net \$89.95

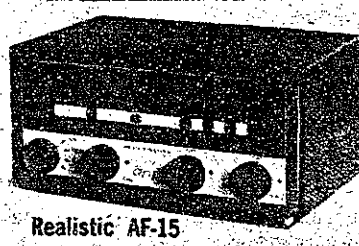

The most astounding amplifier value that the high fidelity market has ever seen! Actually a deluxe hi-fi control center, fully-wired, in a stunning cabinet for less than "kit price". Pre-wired adaptor allows instant conversion to stereo! All that you need is another amplifier and the Realistic Stereo Master (below). Money-back guarantee to have more bona-fide high fidelity features per dollar than any other amplifier available.

LABORATORY-VERIFIED SPECIFICATIONS — OUTPUT: Push-pull 15 watts (30 watt peaks!). RESPONSE: 18 to 30,000 cps ± 1 db. DISTORTION: total RMS harmonic distortion (400 cps @ 15W.) under 1%. Here also you get full +15 and —15 db separate bass and treble controls; separate volume and loudness controls; RIAA phono and Ampex (NARTB) tape head equalization under ±1.5 db from their respective curves; taps for 4/8/16 ohm speakers; 6-tube circuit powered by two EL-84s; quality AC power and output transformers. In addition — a 7-way loudspeaker switching arrangement found on no other amplifier we know of . . . at any price! This allows A-B-C speakers selected in any combination, plus a separate "always on" tap. Thus four speakers in 3 or 4 rooms may be controlled at the AF-15. For a final note of value, the AF-15 comes complete in a smart metal case matching exactly the Realistic FM tuner in size — 9 3/4" x 4 3/4" x 6 1/4" deep, in color — gold with maroon and white.

REALISTIC 'STEREO MASTER' FOR LOW COST STEREO CONVERSION

Worth Over ~~\$19.50~~

\$11⁹⁵

Completely designed by Radio Shack's technical staff and built to the exacting quality standards of all Realistic high-fidelity products, the Stereo Master is your ideal "go-between" for stereophonic sound in 1959. Although specially designed to serve two Realistic A-12 or A-15 amplifiers (see below), it may be used between many others of 1948-58 vintage with minor wiring changes at the amplifiers. Both the Realistic A-12 and A-15 have all connections for the Stereo Master brought out to their rear panels to simple screw terminals.

lineup for tomorrow's encounter has been announced. Ted Schultz '59 will represent the Engineers in the 123-lb. class. Andy Bulfer '61, second in New England in the 130-lb. division as a freshman last spring, is one of the brightest spots on the roster. Another is Dave Latham '61, who was third best 137-pound frosh in NE. The 147-lb. post has not been definitely decided yet, but as we go to press, it appears that the MIT grappler will be either Jim Gross '61 or Jim Wishart '59. At 157 lbs., John Sullivan '61 will take on the Tufts grappler in this class. Reed Freeman '61, a mainstay of last season's yearling aggregation, will compete in the 167-lb. class. Moving up, Bob

MONAURAL! STEREO-READY! STEREO-NOW!

REALISTIC T-IV
NEW FM-AM TUNER

NEW SENSATIONALLY LOW PRICE!

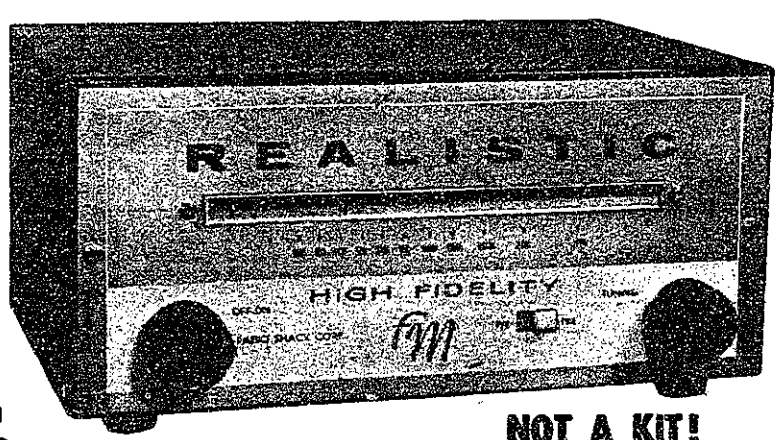

- ★ Low-Noise Cascade RF
- ★ Sensitivity—2 Microvolts for 30 db Quieting!
- ★ Front Panel AFC Defeat!
- ★ Broadband, Sensitive AM!

WE'VE DONE IT AGAIN! The first to break thru the FM tuner price barrier with the famous Realistic Mark I... and now the first to break thru the high fidelity FM-AM tuner barrier with the magnificent new Realistic T-IV. Designed by Radio Shack's own engineering staff, and manufactured under their direct supervision. *Guaranteed to equal or exceed, both in performance and appearance, any tuner available within twice our price.*

ALL NEW FOR 1959... with features and specifications which make it America's foremost FM-AM tuner value! Latest design, low-noise cascade FM front-end assures amazing sensitivity of 2 uv for 30 db quieting (1 uv. for 20 db quieting!). 190 kc IF bandwidth flat within 1.5 db together with instant action AFC guarantee a constant output level with response of 20-20,000 cps \pm 1 db. Total harmonic distortion not greater than 0.5%. Image rejection better than 50 db. IF rejection better than 65 db. FM circuit includes cascade RF, separate mixer. Osc. AFC, 2-IF's, double-tuned limiter, Foster-Seeley discriminator, AFC defeat switch on front panel. The AM section utilizes ultra-quiet tuned RF stage, broadband tuned IF stage with separate crystal diode detector. AM response 20-7500 kc \pm 1 db. Tuner is completely wired and has calibrated illuminated side-rule dial. Handsome gold-tone metal escutcheon with white and maroon trim and matching golden metal cage included. Measures 11 $\frac{1}{2}$ " W. x 4 $\frac{1}{2}$ " H. x 8 $\frac{3}{4}$ " D. excl. depth of knobs (5 $\frac{1}{2}$ ") and loop antenna (1 $\frac{1}{2}$ "). Uses 9 tubes plus rect. (2-duals for 11 tube operation!).

REALISTIC "Delta-7"

Acoustical Perfection in a Mahogany Enclosure

Frankly designed to challenge the performance of justly-famous compact speaker systems in the \$150-\$200 range at a price up to 50% less, the Delta-7 in production has lived up to its prototype in our laboratory. You remember when hi-fi sound with clean separation and deep fundamental bass was found only in massive speaker systems. And you know how in the very recent past science found ways to sustain this type of reproduction in cabinets bordering upon the tiny. Realistic with the Delta-7 does just this! Separate woofer and tweeter with crossover are housed in a magnificently hand-rubbed all 1/4" case measuring a mere 24 1/2 x 13 1/2 x 11" deep. Also built-in is a unique 9-position frequency response control for balancing low, middle, and high frequency contour to your listening area and taste. We know of no other system with this feature. Frequency response 30-15,000. Infinite baffle, sealed airtight. For use with amplifiers of 15 watts or over. 16 ohms. Specify mahogany or light oak. Ship. wt. 45 lbs. Order No. RX-7065Y...Net \$79.95

*STANDARD REFERENCE LEVEL

Another Realistic First! The first and only economy-priced VU meters to be calibrated in strict accordance with Professional Broadcast and Engineering Audio Reference Level Standards! Both the monaural and stereo VU meters are precision jeweled instruments exhibiting a uniform frequency response of ± 0.5 db from 25 to 18,000 cycles. Input impedance is 6000 Ω and sensitivity is such that zero VU equals .775 volts or 1 mw. across 600 Ω . Another important and exclusively Realistic feature, not found in any competing meter, is that the frequency response is constant and completely independent of the setting of the wide-range (20 db) sensitivity control! Other features: jeweled meters, standard — 20 db to +30 db VU scale, and 100% modulation. Just the thing for level analysis and a host of other requirements in audio-radio-P.A. and lab work. Includes instructions and 36" lead 6 x 3 x 1 1/4" deep black bakelite case. Ship. wt. 3 lbs.

How vulner people who neighbor in held in hono in love with seen Peony, rare and wo The day of distraught, offhand, "W to order sor kind of bee fashionable hard to call round beca Gunsby smi were sudder of beer!" he Two orchest when Peony songs that h way througl found Guns out over the his name. He and the pur topped his spilled to the lay frozen Peony said,

word was a silver bell sounding a note that no one else had ever heard before. "Good heavens," Gunsby said, "this isn't my Peony Warren, old boy. Never saw her before in my life!" We stood there a long moment, completely vulnerable, brought to bay by a pack of dreams. Then Gunsby made a pathetic little bow and strode away.

"How sad," Peony said lightly, taking a golden glass of Schaefer from a golden tray. "Can't we play some games now?" I stared at her, appalled by all things shallow and beautiful. After a time I found Gunsby, paddling morosely round and round on a rubber raft in his pool. He was all alone. I raised my glass of Schaefer to him and whispered, "The poor guy. The poor, vulnerable guy."

The tentative Cardinal and Gray lineup for tomorrow's encounter has been announced. Ted Schultz '59 will represent the Engineers in the 123-lb. class. Andy Bulfer '61, second in New England in the 130-lb. division as a freshman last spring, is one of the brightest spots on the roster. Another is Dave Latham '61, who was third best 137-pound frosh in NE. The 147-lb. post has not been definitely decided yet, but as we go to press, it appears that the MIT grappler will be either Jim Gross '61 or Jim Wishart '59. At 157 lbs., John Sullivan '61 will take on the Tufts grappler in this class. Reed Freeman '61, a mainstay of last season's yearling aggregation, will compete in the 167-lb. class. Moving up, Bob

Both squads will have their home openers next Friday night at the Rockwell Cage with Wesleyan. wrestling, there is a serious lack of manpower in the lowest three weight classes. Coach James Maloney is quite concerned about these open positions. To date, the only probable starters for tomorrow's match with the Jumbo freshmen that are known are in the upper weight divisions. Max Snodderly will see action in the 147-lb. class. In the next higher division, Tech will be represented by Greg Brown. Dick Shirley and Paul Olmstead are both hopeful of gaining the 167-lb. spot. In the unlimited battle, it looks like Bob Sharp will be the Beaver grappler.

Both squads will have their home openers next Friday night at the Rockwell Cage with Wesleyan.

Different facets of the space age will be discussed Tuesday, December 9, in a colloquium sponsored by the Political Science Section of the Economics Department, "Industrial, Government, and Private Organizations involved in the Development of Space Technology." The discussion will be open to the public.

RETARDED CHILDREN

The Greater Boston Foundation for Retarded Children has asked MIT for help. Donation containers distributed during their drive to stores in this area must be collected Saturday, December 6. If interested in helping, contact TCA, Ext. 885.

Built-in pilot light. Hammertone gray finish. Rubber mat. 45 rpm stud. Snobe disc. Anti-click condenser. Ship. wt. 16 lbs.

- **HYSTERESIS SYNCHRONOUS MOTOR**
- **3-SPEEDS — 33 1/3, 45, 78 RPM**

NEW 1958 PRODUCTION

ONE YEAR AGO Radio Shack smashed the \$125 price barrier on professional-quality turntables with hysteresis-synchronous 3-speed motors. Now, for a limited time only, Radio Shack stuns the audio world with a \$49.50 price thanks to a lynx-eyed buyer who was there when a motor builder needed cash in a hurry. We rushed these motors into the current production line, and as long as they last you've got yourself a hi-fi bargain nobody but NOBODY can equal. Our Realistic and RETMA guarantees still apply. Our Realistic quality is maintained. Only the price is changed... while they last! See its outstanding specifications in columns at left.

NEW STEREO-MONAUROAL HIGH COMPLIANCE 16" TONE ARM!

\$26.95 List!

\$15⁹⁰

BOOSTER EXPOSURE METER SENSATION!

New MICRONTA Model Equals Meters
Costing 6 Times Our Low Price!

Order No. R-7251 Ship. wt. 1 1/2 lbs. Sale Price \$6.88

INCLUDES:
High-Low METER
2 1/4 x 1 1/4 x 1 1/4
Detachable 4X BOOSTER
Sole Leather Meter Case
Sole Leather Booster Case
Woven Nylon Neckband

\$6.88

This fabulous little meter does everything the big ones do... and more! Yet look at the price and look at the size! It has lens settings f1 to 32... speeds 1/1000 to 16 seconds... ASA settings from 3 to 12,800... DIN settings from 6 to 35... LVS scale 1 to 22... POLAROID scale 1 to 10... and movie scale for 8, 16, 24, 32 and 64 frames per second! It has ZERO ADJUSTMENT screw! You can even use it DIRECT READING! With ASA 100 film at 1/100 you can read direct on the "high" scale... and at 1/25 on the "low" scale. With the "low" cover raised, sensitivity is increased 4 times. With the BOOSTER in place, sensitivity is 16 times greater than at "high". If there's enough light to see, you can get a meter reading! The workmanship is of watch-like perfection and all markings amazingly legible! The dust-proof case is beautifully finished in brushed metal and plastic. Only because it's imported and a RADIO SHACK exclusive is the price so low!

MICRONTA ELEVATOR CAMERA TRIPOD!

How vulnerable people who neighbor in held in honor in love with seen Peony, rare and we The day of distraught, offhand, "V to order sor kind of bee fashionable hard to call round because Gunsby smile were sadder of beer!" he Two orchest when Peony songs that h way through found Guns out over the his name. He and the pur topped his spilled to the lay frozen Peony said,

word was a silver bell sounding a note that no one else had ever heard before. "Good heavens," Gunsby said, "this isn't my Peony Warren, old boy. Never saw her before in my life!" We stood there a long moment, completely vulnerable, brought to bay by a pack of dreams. Then Gunsby made a pathetic little bow and strode away.

"How sad," Peony said lightly, taking a golden glass of Schaefer from a golden tray. "Can't we play some games now?" I stared at her, appalled by all things shallow and beautiful. After a time I found Gunsby, paddling morosely round and round on a rubber raft in his pool. He was all alone. I raised my glass of Schaefer to him and whispered, "The poor guy. The poor, vulnerable guy."

lineup for tomorrow's encounter has been announced. Ted Schultz '59 will represent the Engineers in the 123-lb. class. Andy Bulfer '61, second in New England in the 130-lb. division as a freshman last spring, is one of the brightest spots on the roster. Another is Dave Latham '61, who was third best 137-pound frosh in NE. The 147-lb. post has not been definitely decided yet, but as we go to press, it appears that the MIT grappler will be either Jim Gross '61 or Jim Wishart '59. At 157 lbs., John Sullivan '61 will take on the Tufts grappler in this class. Reed Freeman '61, a mainstay of last season's yearling aggregation, will compete in the 167-lb. class. Moving up, Bob

wrestling, there is a serious lack of manpower in the lowest three weight classes. Coach James Maloney is quite concerned about these open positions. To date, the only probable starters for tomorrow's match with the Jumbo freshmen that are known are in the upper weight divisions. Max Snodderly will see action in the 147-lb. class. In the next higher division, Tech will be represented by Greg Brown. Dick Shirley and Paul Olmstead are both hopeful of gaining the 167-lb. spot. In the unlimited battle, it looks like Bob Sharp will be the Beaver grappler.

Both squads will have their home openers next Friday night at the Rockwell Cage with Wesleyan.

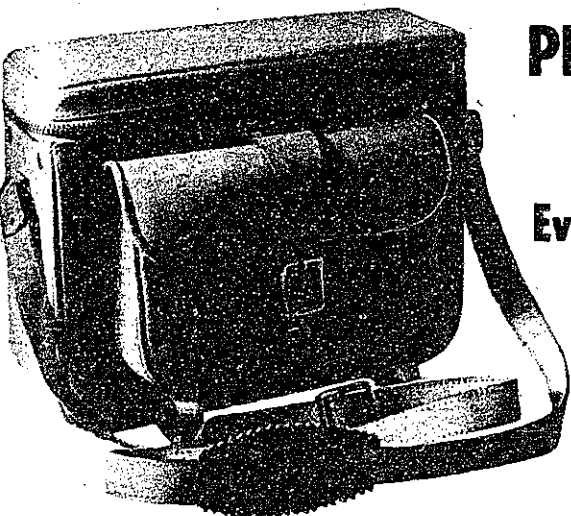

Different facets of the space age will be discussed Tuesday, December 9, in a colloquium sponsored by the Political Science Section of the Economics Department, "Industrial, Government, and Private Organizations Involved in the Development of Space Technology." The discussion will be open to the public.

RETARDED CHILDREN

The Greater Boston Foundation for Retarded Children has asked MIT for help. Donation containers distributed during their drive to stores in this area must be collected Saturday, December 6. If interested in helping, contact TCA, Ext. 885.

win this title this year. With returning lettermen Dwight Moody '59, Louis Nelson '59, Bob Voight '59 and Martin Zimmerman '59, they should do quite well against their toughest opponents, namely, Army, Navy and USCGA. A great boost to the team this year should be returning rifleman Don Vaughn '59 and Dan Schwartz '60. Coach Bigham is no newcomer to the rifle team. Last season he was assistant coach under Army Master Sergeant Robert Mattson. Having great material to work with this winter, he should produce a top team.

includes such formidable opponents as Boston College, Army, Bates College, University of New Hampshire, and University of Connecticut, the team can be expected to steadily improve under the tutelage of their new mentors, Art Farnham and Al Sotir. Coaches Art Farnham and Al Sotir both emphasize the fact that there is still ample room on both freshman and varsity squads, notably in frosh field events, for all those interested and willing to workout. They are available every afternoon at Briggs Field.

- EQUATORIAL AND ALTITUDE-AZIMUTH MOUNT
- HARDWOOD TRIPOD WITH CHAIN, WOOD CASE
- SUN FILTER, RIGHT ANGLE PRISM, 4X FINDER

SHIPPED BY EXPRESS ONLY

Exact and critical amateur astronomers know that optics quality is the most important feature for satisfactory land-sky viewing. That's why Radio Shack feels the popular Micronta Astronomical Refractor Telescope — (hundreds have been sold at higher prices) — is by far the best scope you can buy to start your serious study of the stars or to add to your present telescope equipment. The scope has been designed with expensive features by Radio Shack, manufactured by a foremost overseas manufacturer, — and quality-checked by the optical lab of a famous New England university.

MICRONTA SPECS: All ACHROMATIC, COATED lens surfaces. Viewing lens has 2" dia. (50mm). Cross-hair finder, "scope" is attached. Includes sun filter for viewing sun safely. Terrestrial chrome power selector tube and lens is marked for magnifications, plus click stops. Astronomical lenses are interchangeable to fit directly into telescope. Diagonal right angle prism is for observing high objects in comfortable position. The EQUATORIAL and ALTITUDE-AZIMUTH MOUNT, complete with clamp, balance weight, instructions, is an expensive feature seldom seen on a telescope for under \$100.00. Solid metal body, in pearl white and black baked-enamel finish. 30½" overall. Hardwood tripod extends from 25" to 52" and has accident-proof chain "latches". Handwood carrying case holds the entire system. Were it not imported the cost would exceed \$200.00. MICRONTA GUARANTEED FOR ONE FULL YEAR. Order No. R-9923 Ship. wt. 20 lbs.Complete \$54.50

THE MOST EXCITING ASTRONOMICAL TELESCOPE WE HAVE EVER BEEN ABLE TO OFFER! Truly worthy of University Observatories and of genuine academic value! Telescopes of this merit normally sell for about \$300, rarely below \$250 and never for RADIO SHACK'S phenomenally low \$150. Every possible precaution has been taken to insure the scientific accuracy of this magnificent instrument. The RADIO-SHACK-MICRONTA Guarantee of COMPLETE SATISFACTION OR YOUR MONEY BACK is courteously and sincerely extended to every purchaser. SHIPPED BY EXPRESS ONLY

OPTICAL LABORATORY REPORT

TYPE OF TELESCOPE: Refracting. TYPE OF MOUNTING: Equatorial. OBJECTIVE: 60mm diameter aperture. FOCAL LENGTH: 910mm. COATED: Speed F-15, air-spaced Achromatic. OBJECTIVE HOLD: Metal, internally blackened to reduce reflections, internally threaded to accommodate hold ring for objective, and the end of the barrel. EARE SHIELD: Metallic glare shield, internally blackened, accommodates dustcap. BARREL: Metal internally blackened to reduce reflections. FOCUSING: Rack and pinion, adjustable tensioning. Accommodate eye piece holder. EYE PIECE HOLDER: Accommodator of eye piece and star diagonal. EYE PIECES: 30.3mm variable, provides 30 power, 9mm Huygens provides 101.1 power, 6mm Huygens provides 151.6 power, 4mm orthoscopic provides 227.5 power. (Finder eye piece can also be used 20mm, provides 45.5 power for wide field application). FILTER: For direct viewing of the sun, a threaded insert with track filter, can be inserted into any eye piece. STAR DIAGONAL: Permits right angle view when observing stars. A great convenience. TERRESTRIAL SCOPE EXTENT: This device permits moderate-power terrestrial telescope. The lens erects the image for normal power. SUN PROJECTING SCREEN: A device for safely examining the projected enlarged image of the sun through the scope. It consists of two parts, the extension rod and mounting bracket and the projecting screen. The bracket mounts on the focusing top immediately following the rack and pinion mechanism. MOUNTING: Equatorial mounting. The polar axis is adjustable for any latitude on Earth, and also permits the instrument to operate as an Altitude-Azimuth for terrestrial viewing. The system permits the polar axis to be locked by two heavy compression screws. The compression screw arms can be inserted in any of four positions to obviate awkward locking positions. The polar axis has a collar at the bottom end which can be removed for subsequent electric or mechanical drive motor attachments, or installation of a setting circle. 360 degree slow motion on the polar axis, with a compression lock operating independently. The Right Ascension (or polar axis) slow motion has provisions for adjustment of the fit between the worm and bull gear which provides a choice of tensioning. The Declination axis incorporates a slow motion adjustment and compression lock operating independently. Both slow motions have flexible shaft extensions with large knobs attached to facilitate positioning of the object while at the eyepiece. Two compression screws on the barrel clamp permit the tube to be oriented for balancing in Right Ascension. A counterweight on the Right Ascension axis permits balancing the tube and accessories in Declination. A setting circle could be easily installed on this axis. The tripod legs are adjustable and lock in any position. RESOLUTION: 2" of Arc. OPTICAL DISTORTION: Negligible. Good clear view to extreme edges of field. CONSTRUCTION: All Metallic parts excellently machined and fitted. Machine Grey porcelainized finish.

SUPERB! 5X-10X-20X INSPECTION MICROSCOPE

3 OCULAR LENSES

Worth \$50, Last Offered at \$49.50

Handles Long Or Bulky Specimens!

FOR INSPECTING small parts, jewelry, miniature wiring, textiles, engraving, raised or flat specimens of any kind! Solidly-built of metal, with detachable wire rests, mirror, frosted and clear stages; SUPERB! ARATE achromatic multi-element 5X, 10X and 20X-eyepieces and swinging holder; rack and pinion focusing and elevator (to clear high objects). Exact same as our \$19.50 bargain of last March, at a fantastic low price that may never again be duplicated. The eyepiece lenses alone are worth more than the complete price! Extended height 7", platform 5" x 2½" (wings make it 9" x 2½"). Complete in hardwood case. Note: also ideal for dissection of tissues, fibres, etc. Black and-chromed construction. Order No. R-8156 Ship. wt. 6 lbs.\$8.95

wrestling, there is a serious lack of manpower in the lowest three weight classes. Coach James Maloney is quite concerned about these open positions. To date, the only probable starters for tomorrow's match with the Jumbo freshmen that are known are in the upper weight divisions. Max Snodderly will see action in the 147-lb. class. In the next higher division, Tech will be represented by Greg Brown. Dick Shirley and Paul Olmstead are both hopeful of gaining the 167-lb. spot. In the unlimited battle, it looks like Bob Sharp will be the Beaver grappler.

Both squads will have their home openers next Friday night at the Rockwell Cage with Wesleyan.

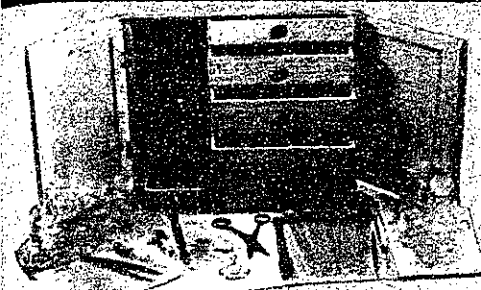

Different facets of the space age will be discussed Tuesday, December 9, in a colloquium sponsored by the Political Science Section of the Economics Department, "Industrial, Government, and Private Organizations involved in the Development of Space Technology." The discussion will be open to the public.

RETARDED CHILDREN

The Greater Boston Foundation for Retarded Children has asked MIT for help. Donation containers distributed during their drive to stores in this area must be collected Saturday, December 6. If interested in helping, contact TCA, Ext. 885.

Built-in Sub Stage Light!

LIGHT

NEW "SUPER I-BEAM" beats all standard microscopes selling elsewhere at higher prices! Sensationally new MICRONTA microscope has features found in the costliest units and now, FOR THE FIRST TIME, you have built-in swiveling condenser lens, greater sharpness and power, sub-stage illumination. Condenser lens is located at fingertips and varies the intensity of the light needed for accurate microscopic research. It's fully adjustable to use with artificial and natural light. Built-in sub-stage pencil battery light can be reversed to use reflecting mirror with our Microscope Light (R-6280). Micro-smooth adjustment allows you to use both objective lens without slowing up work. Like other Microna microscopes, the "Super I-Beam" has fitted hardwood case and cover, dual rack-and-pinion focusing knobs, achromatic optics, black satin finish, metal construction, prepared slide, 2 blank slides. Order No. R-6279 Ship. wt. 5 1/2 lbs.

- Both flat and concave mirrors
- 3 Huygenian eyepieces 5X, 10X and 15X
- 4 Achromatic objectives 5X, 10X, 40X and 60X
- 10 Magnifications: 25X-50X-75X-100X-150X-200X-300X-400X-600X-900X

For Scientific and Professional Use

The most outstanding microscope value Radio Shack has ever been able to offer! This scientific research instrument was designed and constructed to meet the exacting requirements demanded by analytical laboratories, yet priced so low that it is within the reach of anyone desirous of a truly precise instrument. Especially recommended for use in medical, industrial, public health and university laboratories.

The 3 Huygenian eyepieces (5X, 10X and 15X) consist of 2 plano-convex lenses mounted one at each end of the eyepiece tube. The 4 Achromatic Objectives (5X, 10X, 40X and 60X) thread individually into a revolving turret and are correlated with the eyepieces minimum residual chromatic difference, and are matched for optimum resolving power, (high N.A.). Dual knob coarse adjustment and a precision micrometer fine adjustment are provided. A 5 aperture substage condenser and a fork-mounted reversible flat and concave mirror are included. All moving parts are exactly machined of brass and heavily chrome-plated. Solid cast iron arm, base and stage. Handsomely finished black baked-enamel. MICRONTA guaranteed to meet specifications, RADIO SHACK money-back guaranteed to exceed your expectations! 11" H. x 4" W. x 6" D. Stage 3-1/16" x 2-1/16". Ship. wt. 6 1/2 lbs. Complete with fitted wooden carrying case. Order No. R-7202 Ship. wt. 6 1/2 lbs.

win this title this year. With returning lettermen Dwight Moody '59, Louis Nelson '59, Bob Voight '59 and Martin Zimmerman '59, they should do quite well against their toughest opponents, namely, Army, Navy and USCGA. A great boost to the team this year should be returning rifleman Don Vaughn '59 and Dan Schwartz '60.

Coach Bigham is no newcomer to the rifle team. Last season he was assistant coach under Army Master Sergeant Robert Mattson. Having great material to work with this winter, he should produce a top team.

includes such formidable opponents as Boston College, Army, Bates College, University of New Hampshire, and University of Connecticut, the team can be expected to steadily improve under the tutelage of their new mentors, Art Farnham and Al Sotir.

Coaches Art Farnham and Al Sotir both emphasize the fact that there is still ample room on both freshman and varsity squads, notably in frosh field events, for all those interested and willing to workout. They are available every afternoon at Briggs Field.

The Bell Telephone Companies offer these fundamentals to hard-working, ambitious realists majoring in the arts, the sciences, business or engineering. Get the whole story regarding telephone careers. Talk with the Bell interviewer when he visits your campus. Ask him about training, advancement opportunities, salary, job security. We think you'll like what you learn.

You can also get information about telephone careers by reading the Bell Telephone booklet on file in your Placement Office.

How vulne people who neighbor in held in hon in love wit seen Peony rare and w. The day c distraught. offhand, "V to order so kind of be fashionable hard to call round bca Gunsby sm were sudde of beer!" he Two orches when Peon: songs that l way throu found Gun out over th his name. H and the pu topped his spilled to th lay frozen Peony said

word was a silver bell sounding a note that no one else had ever heard before. "Good heavens," Gunsby said, "this isn't my Peony Warren, old boy. Never saw her before in my life!" We stood there a long moment, completely vulnerable, brought to bay by a pack of dreams. Then Gunsby made a pathetic little bow and strode away.

"How sad," Peony said lightly, taking a golden glass of Schaefer from a golden tray. "Can't we play some games now?" I stared at her, appalled by all things shallow and beautiful. After a time I found Gunsby, paddling morosely round and round on a rubber raft in his pool. He was all alone. I raised my glass of Schaefer to him and whispered, "The poor guy. The poor, vulnerable guy."

NEW! 11" VAN de GRAAFF GENERATOR KIT!

70,000 Volts OF STATIC ELECTRICITY

FROM NEW VAN de GRAAFF ELECTROSTATIC GENERATOR

\$14.95

Over 1" Sparks! Harmless - SAFE! 110 Volt AC Motor!

Equal to 80 Units

Table Model Size of Multi-Million Volt Generator at M.I.T. and Museum of Science Designed for Nuclear Research!

Over 10 Practical Projects for Man-Made Lightning Experiments:

- Human hair stands out straight!
- 1 1/2-in. sparks jump to fingers!
- Sparks jump from dome to electrode!
- Jump pith balls (balloons)!
- Smoke precipitation, Cottrell process!
- Neon and fluorescent bulbs glow!
- Operation of electrostatic gear!
- Rotate "Poulsen Motor", Whirling!
- Home-made electroscope!
- Lighting of Geissler tubes!

The Wonders of the Atomic Age are dramatically seen and explained with this fabulous Van de Graaff generator kit! It teaches, makes experiments, permits research in innumerable projects using the same very high voltage principle that has great importance in nuclear research (atom smashing), X-ray cancer treatment, photography, textile and electronic research.

Constructed of spun aluminum cap and base and a transparent cylinder. Stands 11-inches high and comes complete with instruction booklet for projects, accessories, and connecting cord. Thousands are now in use in colleges and high schools as well as in experimental labs of industry.

\$3.95

THE F. & M. SCHAEFER BREWING CO., NEW YORK and ALBANY, N. Y.

The tentative Cardinal and Gray lineup for tomorrow's encounter has been announced. Ted Schultz '59 will represent the Engineers in the 123-lb. class. Andy Bulfer '61, second in New England in the 130-lb. division as a freshman last spring, is one of the brightest spots on the roster. Another is Dave Latham '61, who was third best 137-pound frosh in NE. The 147-lb. post has not been definitely decided yet, but as we go to press, it appears that the MIT grappler will be either Jim Gross '61 or Jim Wishart '59. At 157 lbs., John Sullivan '61 will take on the Tufts grappler in this class. Reed Freeman '61, a mainstay of last season's yearling aggregation, will compete in the 167-lb. class. Moving up, Bob

POCKET 5" SLIDE RULE

IN GENUINE LEATHER CASE

\$2.90

in this title this year. With returning lettermen Dwight Moody '59, Louis Nelson '59, Bob Voight '59 and Martin Zimmerman '59, they should be quite well against their toughest opponents, namely, Army, Navy and USCGA. A great boost to the team this year should be returning rifleman Don Vaughn '59 and Dan Schwartz '60.
Coach Bigham is no newcomer to the rifle team. Last season he was assistant coach under Army Master Sergeant Robert Mattson. Having great material to work with this winter, he should produce a top team.

includes such formidable opponents as Boston College, Army, Bates College, University of New Hampshire, and University of Connecticut, the team can be expected to steadily improve under the tutelage of their new mentors, Art Farnham and Al Sotir.
Coaches Art Farnham and Al Sotir both emphasize the fact that there is still ample room on both freshman and varsity squads, notably in frosh field events, for all those interested and willing to workout. They are available every afternoon at Briggs Field.

The Bell Telephone Companies offer these fundamentals to hard-working, ambitious realists majoring in the arts, the sciences, business or engineering. Get the whole story regarding telephone careers. Talk with the Bell interviewer when he visits your campus. Ask him about training, advancement opportunities, salary, job security. We think you'll like what you learn.
You can also get information about telephone careers by reading the Bell Telephone booklet on file in your Placement Office.

TWELVE GREAT DECCA CHRISTMAS 12" LPs!

Reg. \$3.98 **\$2.88**

★ Bing Crosby
★ Guy Lombardo
★ Leroy Anderson
★ Burl Ives
★ Trapp Family
★ And Others!

THE 12 BEST Xmas disks in fabulous Decca hi-fi, all 12" factory-fresh current records — no cut-outs. Limited quantity to sell at this crazy price but we guarantee SAME DAY shipment if you get your mail order to us today! Ship. wt. 1 lb. each record. State 2nd choices if you're worried! Order by R-DL number.

R-DL-8128: BING CROSBY "Merry Christmas", the world's all-time best selling holiday album — 12 carols and lighter Yule hits, some rare collaborations with the Andrews Sisters. Don't miss this!

R-DL-8171: FRED WARING and the Pennsylvanians in a great collection of 12 carols and Xmas favorites. The orchestra, chorus and glee club, in a heart-warming program the whole family will adore.

R-DL-8187: ETHEL SMITH plays Christmas Music, organ solos with chimes, celeste and vibraphone! The 12 most popular carols, played as only organist Smith can play — "tops", and a perennial best seller.

R-DL-8181: THE FOUR ACES sing for your merry Christmas, a dozen carols and popular Xmas ditties. This quartet ranks high among male groups, and this particular performance is a personal favorite of ours.

R-DL-8193: LEROY ANDERSON and his orchestra play an unusual group of 18 Christmas carols — entirely instrumental, no vocals. Some are old-time favorites, some ancient, some foreign. Superb big-sounding background disk!

R-DL-8204: CHRISTMAS AROUND THE WORLD, Svend Saaby Choir with instrumental acc. A hi-fi Deutsche Grammophon disk featuring carols from Germany, Italy, England, America, Austria, France, Switzerland, Sweden, Denmark, in their mother tongues. Unique and valuable record!

R-DL-8354: GUY LOMBARDO and His Royal Canadians, play Jingle Bells and 11 other Xmas popular favorites, two with the Andrews Sisters! We ship over 1000 of these disks annually, but never before at a price so low. Essential!

R-DL-8388: CHRISTMAS ON THE RHINE, another fine Deutsche Grammophon release with Werner Muller directing a mixed chorus and orchestra in a stirring performance of German (and one Latin) carols and holiday season songs, sung of course in German. Recommended.

R-DL-8381: BURL IVES in a Christmas Eve program of 11 Yuletide carols and hymns. This master folk singer is the ideal performer for these works, and the whole family will treasure this disk for Xmas and all the months of the new year.

R-DL-8419: BING CROSBY in "A Christmas Sing with Bing" is heard with the Norman Luboff Choir and others in a program of 19 carols and seasonal hits, entirely different from the first Crosby album in this list.

R-DL-8652: JOYOUS BELLS OF CHRISTMAS, Owen Bradley's organ and chimes and quintet, in 14 carols and popular Xmas tunes. A delightfully hi-fi album in the glad spirit of the season.

R-DL-9553: CHRISTMAS WITH THE TRAPP FAMILY SINGERS, always a sell-out at \$3.98 and what a "steal" at Radio Shack's sale price! Yuletide songs of many lands. A record that stands alone in its class!

HOLIDAY PARTY DISK!

R-DL-8655: LET'S HAVE A PARTY, for Xmas, New Year's, or any night of the year. Decca has collected beloved favorites like Auld Lang Syne, Tavern in the Town, O'Clock in the Morning, Shanty in Old Shanty Town, etc., etc., as performed by Lombardo, Wayne King, Bill Haley, 4 Aces, Russ Morgan and others. The "gay" disk for making folks glad to be alive!

FABULOUS! UNICORN HI-FI 12" LP's OVER 1/2 OFF!

★ Sale Includes "Music at M-I-T" Series with Peter Bartok Recording at Kresge Auditorium!

Reg. \$3.98

\$1.95 ea.

2 for **\$3.69**

Don't miss this opportunity to increase your record collection with your favorite pieces recorded in high hi-fidelity! The remarkable acoustics at M.I.T.'s famed Kresge Auditorium provide excellent facilities for recording good music. We have made an extra special purchase of these 12" LP great discs so hurry to the Shack while our supply lasts!

UN-LP-1031: THE MODERN AGE OF BRASS is unique in that brass chamber music has no regular place of public performance, making a record of this sort a treasure. Music of Dahl, Hindemith, Bercewski, Sanders, played by Roger Voisin and his brass ensemble, effectively convey this fascinating unconventional music from Kresge Auditorium. An exciting record!

UN-LP-1028: SONATAS by BACH, HINDEMITH, DUTILLEUX comprise a magnificent recording. The Berkshire Woodwind Ensemble, Louis Speyer directing, play sonatas for oboe and harpsichord, English horn and piano, and oboe and piano. Terrific buy!

UN-LP-1037: BARTOK, IVES, MILHAUD, SKALKOTTAS played by the Zimble Sinfonietta, Lukas Foss conducting. A fine recording of Bartok's Divertimento for String Orchestra, Ives', The Unanswered Question, Milhaud, Symphony No. 4 for Strings, Skalkottas, Little Suite For Strings. All on a Unicorn Exclusive MONEY BACK HIGH FIDELITY GUARANTEE!!!

UN-LP-1046: THE ART OF ANDRE MARCHEL, complete master of the organ. This four times winner of the Grand Prix Du Disque plays organ music of J. S. Bach, Henry Purcell, Sweelinck and others at Kresge Auditorium. A thrilling disc!

UN-LP-1007: HAYDN, Symphony in G Major; Concerto for Flute and Orchestra. F. Charles Adler conducts the Vienna Orchestra Society in two of Michael Haydn's masterpieces which show the style of Viennese Classical music raised to a level of unique perfection!

UN-LP-1034: BEETHOVEN PIANO SONATAS played by Ernst Levy. Piano Sonata in F Minor, Op. 57 ("Appassionata"), and Piano Sonata in C Minor, Op. 111 show a striking example of the contrast between the "middle" and "late" Beethoven—the Classic and Romantic. You'll thrill at the tonal capacity of this disc recorded at M.I.T.

UN-LP-1036: HAYDN SONATAS contains four sonatas of outstanding merits: No. 32 in B minor, No. 50 in C major, No. 51 in D major, No. 46 in A-flat major. Ernst Levy at the keys plays at Kresge.

UN-LP-1040: J. S. BACH, BRANDENBURG CONCERTOS. Add to your collection of Brandenburgs. Here are Nos. 1 in F Major, 2 in F Major, and 4 in G Major. Boyd Neel conducts the Boyd Neel Orchestra, Emanuel Hurwitz featured on violin. Wow!

UN-LP-1038: LIGHT MUSIC to relax by played by the Boyd Neel Orchestra. A most enjoyable recording having selections: Romance by Sibelius, Two Melodies by Edvard Grieg, Handel's Overture "Faramondo" plus 5 more. This will rank among your favorites!

UN-LP-1033: BEETHOVEN PIANO SONATAS mastered by Ernst Levy playing at Kresge Auditorium. Piano Sonata in E Major, Op. 109, Piano Sonata in A-flat major, Op. 110 are the two great compositions. Don't miss this one!

UN-LP-1003: THE GOLDEN AGE OF BRASS has exciting brass pieces that encompass a period of 150 years. Hear the Brass Ensemble directed by Roger Voisin play works from Italy, England and Germany, and composed by Gabrieli, Adson, Purcell, Reiche, J. S. Bach and more!

UN-LP-1044: DVORAK, VAUGHAN WILLIAMS create memorable music that everyone will enjoy listening to. Antonin Dvorak's Serenade in E Major for String Orchestra, Opus 22 has freshness and delightful melodies. Ralph Vaughan Williams' Fantasia on "Greensleeves" plus Fantasia on a Theme by Thomas Tallis, also, provide great listening!

R-UN-LP-1027: HISTORY OF THE DANCE FORM presents a delightful selection of the bourree and courante. Examples of these French dances are taken from composers throughout Europe: J. S. Bach, Krieger, Fux, Loellist, etc. Talented Erna Hellier plays Harpsichord.

UN-LP-1043: HANDEL'S MESSIAH—an exceedingly striking performance of excerpts from "Messiah" presented by the Handel and Haydn Society of Boston. Thompson Stone conducts the Zimble Sinfonietta. Superb voices of Adele Addison, Lorna Sydney, David Lloyd, Donald Gramm add to the magnificence of this recording.

R-UN-LP-1004: BACH CHORALE PRELUDES plus other organ works by Regier, Peeters, Vieme, etc. features the accomplished American organist John Harms. This is an excellent introduction for those who know the organ slightly, while it provides wonderful listening for all organ music lovers.

UN-LP-1051: BEETHOVEN'S Sonata in E Minor, Op. 90; Sonata in A Major, Op. 101. Ernst Levy interprets these piano sonatas with the special understanding of a true virtuoso!

UN-LP-1029: PISTON, THOMPSON, RIETI, JONGEN; Result — one fascinating recording "Modernists". The four compositions present a spectrum of musical styles neatly summarized. The Berkshire Woodwind Ensemble with assisting artists performs these delightful pieces.

UN-LP-1014: SHAKESPEARE'S TEMPEST by first-rate English composer Sir Arthur Sullivan, hailed in all musical circles for his brilliant music to Shakespeare's Tempest. F. Charles Adler conducts the Vienna Orchestra Society, Patricia Brinton, often prima donna, is soprano, incidental Music to Shakespeare's Henry VIII completes this great album.

UN-LP-1039: BACH: Brandenburg Concerto No. 5; Concerto for Piano in D Minor. Lukas Foss, world renowned as conductor, pianist, and composer plays impressive virtuoso passages as well as conducts the Zimble Sinfonietta. This music is among Bach's best!

RCA-VICTOR'S 6 TOP XMAS DISKS!

Reg. \$3.98 **\$2.88**

Reg. \$4.98 **\$3.49**

MARIO LANZA, Robert Shaw, and other RCA-Victor stars in their finest Christmas recordings at typical Radio Shack bargain prices — while they last. Order by R-LM or R-LPM number, ship. wt. 1 lb. each.

R-LM-2029: MARIO LANZA sings 15 carols and hymns of the season, as only this glorious tenor can sing. Stunning accompaniment by Henri Rene, Ray Sinatra, Jeff Alexander and chorus. A best seller and highly recommended! Reg. \$4.98, SALE PRICE \$3.49.

R-LM-2139: CHRISTMAS HYMNS AND CAROLS, the Robert Shaw Chorus. Without doubt the best-selling choral disk of all time, with a full 23 song program of your very favorite Yule classics! Reg. \$4.98, SALE PRICE \$3.49.

R-LPM-1115: CHRISTMAS BELLS, Paul Michelson playing Symphonic Carillon and Vibraphone, in a thrilling program of 26 carols and hymns of the season. Recommended! Reg. \$3.98, SALE PRICE \$2.88.

R-LPM-1132: THE THREE SUNS in a treasured album entitled "The Sounds of Christmas", orchestra acc. Nineteen carols and popular seasonal songs including Greensleeves, White Christmas, O Tannenbaum, etc. For the whole family Reg. \$3.58, SALE PRICE \$2.88.

R-LPM-1141: THE VOICES OF WALTER SCHUMANN in 19 familiar and love carols, popular tunes and folk songs of the season. Gorgeous group singing and an unusual program. Reg. \$3.98, SALE PRICE \$2.88.

R-LPM-1243: PERRY COMO Sing Merry Christmas Music, with Milt Ayres and Russ Case orchestras, sizzling best-seller containing 16 carols and seasonal tunes to delight any listener of any age. We sell over 1000 a year, usually for much much more! Reg. \$3.98, SALE PRICE \$2.88.

HARRY BELAFONTE ON TEN 45-EP RECORDS!

Reg. \$14.90 **\$3**

17's RCA-VICTOR hi-fi, it's fabulous Harry BELAFONTE, the hottest folk/pop/Calyppo singer in the history of records, 10 e-p-t-e-n-d-e-d 45 rpm disks with THIRTY-NINE (39) songs including DAY O, Man Smart, Jamaica Farewell, John Henry, Lord Randall, Matilda, etc. etc. Boxed set includes 16-page illustrated booklet. A 2 1/2-hour songfest at a price that defies comparison the world around. Also makes a stunning gift. Limited quantity at this mad price! Ship. wt. 2 1/2 lbs. Order No. 5FD-24

How you people with neighbor held in hand in love seen Peony rare and The day distraught offhand, to order kind of fashionable hard to round be Gunsby were sud of beer!" Two orch when Peony songs tha way thro found Gu out over his name. and the topped h spilled to lay froze Peony sa

word was a silver bell sounding a note that no one else had ever heard before. "Good heavens," Gunsby said, "this isn't my Peony Warren, old boy. Never saw her before in my life!" We stood there a long moment, completely vulnerable, brought to bay by a pack of dreams. Then Gunsby made a pathetic little bow and strode away.

"How sad," Peony said lightly, taking a golden glass of Schaefer from a golden tray. "Can't we play some games now?" I stared at her, appalled by all things shallow and beautiful. After a time I found Gunsby, paddling morosely round and round on a rubber raft in his pool. He was all alone. I raised my glass of Schaefer to him and whispered, "The poor guy. The poor, vulnerable guy."

The tentative schedule and lineup for tomorrow's encounter has been announced. Ted Schultz '59 will represent the Engineers in the 123-lb. class. Andy Bulfer '61, second in New England in the 130-lb. division as a freshman last spring, is one of the brightest spots on the roster. Another is Dave Latham '61, who was third best 137-pound frosh in NE. The 147-lb. post has not been definitely decided yet, but as we go to press, it appears that the MIT grappler will be either Jim Gross '61 or Jim Wishart '59. At 157 lbs., John Sullivan '61 will take on the Tufts grappler in this class. Reed Freeman '61, a mainstay of last season's yearling aggregation, will compete in the 167-lb. class. Moving up, Bob

wrestling, there is a serious lack of manpower in the lowest three weight classes. Coach James Maloney is quite concerned about these open positions. To date, the only probable starters for tomorrow's match with the Jumbo freshmen that are known are in the upper weight divisions. Max Snodderly will see action in the 147-lb. class. In the next higher division, Tech will be represented by Greg Brown. Dick Shirley and Paul Olmstead are both hopeful of gaining the 167-lb. spot. In the unlimited battle, it looks like Bob Sharp will be the Beaver grappler.

Both squads will have their home openers next Friday night at the Rockwell Cage with Wesleyan.

Different facets of the space age will be discussed Tuesday, December 9, in a colloquium sponsored by the Political Science Section of the Economics Department, "Industrial, Government, and Private Organization involved in the Development of Space Technology." The discussion will be open to the public.

RETARDED CHILDREN

The Greater Boston Foundation for Retarded Children has asked MIT for help. Donation containers distribute during their drive to stores in the area must be collected Saturday, December 6. If interested in helping contact TCA, Ext. 885.

GREAT SEGOVIA GUITAR DISKS!

Reg. \$3.98 **\$2.88**

SEGOVIA'S ENTIRE DISCOGRAPHY, ten records in all, are offered for the first time by Radio Shack at a fantastic sale price. As you know Andres Segovia alone has raised the guitar from a "special" category to symphony orchestral stature. Segovia's chosen instrument is a special favorite of hi-fi fans. Only Decca records this master. Order by disc number. Limited quantities of some numbers, so hurry! Ship. wt. 1 lb.

R-DLX-9751: SEGOVIA, plays the works of Bach, Mendelssohn, Sors, Villa-Lobos, and Rodrigo! This is a gem: Hi-Fi sound. Mainly romantic works by these composers. Included are Bach's Chaconne, and Rodrigo's Sarabanda!

R-DLX-9794: MASTERS OF THE GUITAR, compositions of Fernando Sors, and Francisco Tarrega, performed masterfully by the master himself, Segovia. Selections include six compositions of Sors' and ten by Tarrega.

R-DLX-9795: Art of SEGOVIA is well demonstrated here as the master shows his skill by performing Castenuevo-Tedesco's Tondilla for Guitar in the Name of Andres Segovia, plus works by Ponce, Crespo, Lauro, Cassado, Bach. Thirteen glowing selections!

R-DLX-8022: SEGOVIA CONCERT, features the music of Albeniz and Granados on Side 1. Side 2 includes 15 predominantly Spanish works such as Danza Espanola, Granada, Entrada y Giga, Burgalesa y Albada, etc. Glorious guitar disc!

R-DLX-9633: ANDRES SEGOVIA IN RECITAL, marvelous performances: including works by Bach, Sors' thrilling Allegro, Song Without Words by Mendelssohn. Other selections by Schubert, Albeniz, Torroba.

R-DLX-9638: ANDRES SEGOVIA, in a concert of works from the classic period by Handel, Bach, and Mozart; the well known Variations of a Theme by Mozart by Sors, plus works of Villa-Lobos, Falla and others.

R-DLX-9733: EVENING WITH SEGOVIA, and what a way to spend an evening! Listen to Segovia play Frescobaldi, Tansman, Capriccio Diabolico, Six Preludes by Ponce, Minuet by Rameau, and the beautiful Nocturno of Torroba. Six works in all; the fi is hit!

R-DLX-9832: SEGOVIA IN QUARTET, with the Quintetto Chigiano, performs the remarkable Castenuevo-Tedesco composition, Quintet, Op. 143, for Guitar and String Quartet on this LP also are works by Villa-Lobos, Scriabin, Haug and Llobet.

R-DLX-9734: SEGOVIA PLAYS fourteen selections in all, many of them arranged by the master himself. Immortal works by Haydn, Grieg, Ponce, Chapi, Franck, Bach, Couperin, Torroba. Don't miss this one!

R-DLX-9531: SEGOVIA AND THE GUITAR, the perfect combination! Here Segovia demonstrates his artistry by performing Joan Manen's Fantasia-Sonata, written for Segovia! Five other hi-fi selections by Scarlatti, Dowland, Navarez, Espia.

BURL IVES, DON COSSACKS!

Reg. \$3.98 **\$2.88**

R-DLX-8125: BURL IVES SINGS songs for and about men. You'll be delighted by The Locktender's Lament, When I Was Single, The Bold Soldier, The Young Married Man, The Deceiver (Oh How He Lied), The Midnight Special, Franky and Johnny, John Henry, etc. Fifteen songs in all!

R-DLX-8080: BURL IVES CONCORDANCE CONCERT recorded "live" at Royal Festival Hall, London. Burl Ives sings all the songs he is famous for in this concert. Blue Tail Fly, Lolly Too Dum, Mr. Froggie, Big Rock Candy Mountain, How Now Shepherd. Fourteen in all!

R-DLX-9947: DON COSSACK CHOIR, directed by Serge Jaroff, and recorded by Deutsche Grammophon in Europe. Songs: Oh God, Save Thy People, By The Don River, Evening Bells, Two Cossack Songs, the First Psalm of David, etc. Eleven selections!

this title this year. With returning lettermen Dwight Moody '59, Louis Nelson '59, Bob Voight '59 and Martin Zimmerman '59, they should be quite well against their toughest opponents, namely, Army, Navy and USCCA. A great boost to the team this year should be returning rifleman Don Vaughn '59 and Dan Schwartz '60.

Coach Bigham is no newcomer to the rifle team. Last season he was assistant coach under Army Master Sergeant Robert Mattson. Having great material to work with this winter, he should produce a top team.

includes such formidable opponents as Boston College, Army, Bates College, University of New Hampshire, and University of Connecticut, the team can be expected to steadily improve under the tutelage of their new mentors, Art Farnham and Al Sotir.

Coaches Art Farnham and Al Sotir both emphasize the fact that there is still ample room on both freshman and varsity squads, notably in frosh field events, for all those interested and willing to workout. They are available every afternoon at Briggs Field.

The Bell Telephone Companies offer these fundamentals to hard-working, ambitious realists majoring in the arts, the sciences, business or engineering. Get the whole story regarding telephone careers. Talk with the Bell interviewer when he visits your campus. Ask him about training, advancement opportunities, salary, job security. We think you'll like what you learn.

You can also get information about telephone careers by reading the Bell Telephone booklet on file in your Placement Office.

DISK COLLECTORS DON'T MISS THIS

- ★ Zino Francescatti
- ★ Robert Casadesu
- ★ Columbia 12" LP

Regularly \$10.00

Sale! **\$2.95**

THIS RECORD has never before been sold in a record store to our knowledge. We quote from the jacket: "Mr. Casadesu and Mr. Francescatti have made this record so that its sale might benefit the American Library in Paris ... which, since 1920, has contributed greatly to better understanding of the United States by the people of France. Only 2760 copies of this record have been printed and the record-master destroyed; the artists will not record these works again."

CONTENTS: BACH Sonata No. 2 in A Major for Violin and Piano; CASADESUS Hommage a Chausson for Violin and Piano; FRANCESCATTI Three Preludes for Piano (Cezanne, Dufy, Modigliani). Artists: Francescatti (violin), Casadesu (piano). The record was issued at \$10.00, pressed by Columbia and bears no disk number — merely the words Limited Edition. Needless to say, Radio Shack's quantity of the 2760 is limited, and the demand for this truly rare performance will unquestionably lead to a quick sell-out! Ship. wt. 1 lb. Order No. COL-LTD Only \$2.95

6 VANGUARD DEMO LP's!

\$4.98 VALUE FOR

\$1.79

EACH 12" LP DISK

VANGUARD HI-FI is 25-18,000 cycles, rigidly controlled. To let you hear it, they've issued a series of six 12" LP disks — each entirely complete, NOT a mere batch of excerpts — at a reduced price. Radio Shack has them, and OUR price is still further reduced! Note: these are \$4.98 disks in every way, same as all Vanguard classics. Ship. wt. 1 lb. each.

SRV-104: STRAUSS in HI-FI, Johann Strauss, Sr. and Jr. and Josef Strauss! Complete: Persian March, Tales from Vienna Woods, Feurfest Polka, Village Swallow, Csardas, Roses from the South, Radetzky March, Anton Paulik and the Vienna State Opera Orchestra — who plays Strauss better than the Viennese?

SRV-105: BACH and all complete — Brandenburg Concerto No. 2; Suite No. 2; Violin Concerto No. 2 (Tomasow); and Air from Suite No. 3, Prohaska and the Chamber Or-chestra of the Vienna State Opera!

SRV-106: SCHUBERT 8th "Unfin-ished" and a really noble Beethoven 5th Symphony, two of the most wanted symphonies at fantastic savings. Prohaska/Vienna.

SRV-102: MOZART Symphony No. 40 and Eine kleine Nachtmusik, both complete library "musts"; Felix Prohaska and the Vienna State Opera orchestra. Superb Vanguard record!

SRV-103: SCHEERAZADE, complete super-fi Vanguard 25-18,000 cps performance of Rimsky-Korsakov's masterpiece, Mario Rossi conduct-ing the orchestra of the Vienna State Opera.

SRV-107: BIZET Carmen Suite com-plete, and L'Arlésienne Suite No. 1, two Bizet orchestral works with the flavor of Spain and France, in gor-geous hi-fi by Mario Rossi and the Vienna State. Just released and a truly exciting coupling!

How vul people w neighbor held in hc in love w seen Peor rare and The day distraugh offhand, to order s kind of b fashionabl hard to ca round bec Gunsby si were sudd of beer!"

Two orche when Peoi songs that way throu found Gu out over t his name. and the p topped hi spilled to t lay frozen Peony said

word was a silver bell sounding a note that no one else had ever heard before. "Good heavens," Gunsby said, "this isn't my Peony Warren, old boy. Never saw her before in my life!" We stood there a long moment, completely vulner-able, brought to bay by a pack of dreams. Then Gunsby made a pathetic little bow and strode away.

"How sad," Peony said lightly, taking a golden glass of Schaefer from a golden tray. "Can't we play some games now?" I stared at her, appalled by all things shallow and beautiful. After a time I found Gunsby, paddling mo-rosely round and round on a rubber raft in his pool. He was all alone. I raised my glass of Schaefer to him and whispered, "The poor guy. The poor, vulnerable guy."

lineup for tomorrow's encounter has been announced. Ted Schultz '59 will represent the Engineers in the 123-lb. class. Andy Bulfer '61, second in New England in the 130-lb. division as a freshman last spring, is one of the brightest spots on the roster. Another is Dave Latham '61, who was third best 137-pound frosh in NE. The 147-lb. post has not been definitely decided yet, but as we go to press, it appears that the MIT grappler will be either Jim Gross '61 or Jim Wishart '59. At 157 lbs., John Sullivan '61 will take on the Tufts grappler in this class. Reed Free-man '61, a mainstay of last season's yearling aggregation, will compete in the 167-lb. class. Moving up, Bob

wrestling, there is a serious lack of manpower in the lowest three weight classes. Coach James Maloney is quite concerned about these open positions. To date, the only probable starters for tomorrow's match with the Jumbo freshmen that are known are in the upper weight divisions. Max Snoderly will see action in the 147-lb. class. In the next higher di- vision, Tech will be represented by Greg Brown. Dick Shirley and Paul Olmstead are both hopeful of gain- ing the 167-lb. spot. In the unlimited battle, it looks like Bob Sharp will be the Beaver grappler.

Both squads will have their home openers next Friday night at the Rockwell Cage with Wesleyan.

Different facets of the space age will be discussed Tuesday, December 9, in a colloquium sponsored by the Political Science Section of the Economics Department, "Industrial, Government, and Private Organizations involved in the Development of Space Technology." The discussion will be open to the public.

RETARDED CHILDREN

The Greater Boston Foundation for Retarded Children has asked MIT for help. Donation containers distributed during their drive to stores in this area must be collected Saturday, December 6. If interested in helping, contact TCA, Ext. 885.

R-LL-274: ROSSINI-RESPIGHI La Boutique Fantasque. One of the greatest hi-fi records ever made! This joyous and happy ballet score is good-humoredly conducted by Ernest Ansermet with the London Symphony Orchestra.

R-LL-1495: ROUSSEL Symphony No. 3 in G Minor Op. 42 and Symphony No. 4 in A Minor Op. 53. Modern symphonies of gripping emotional intensity performed by Ernest Ansermet conducting L'Orchestre de la Suisse Romande.

R-LL-1633: TCHAIKOVSKY Symphony No. 6 in B Minor, Op. 74 ("Pathe-tique"). One of the immortal symphonies sensitively done by L'Orchestre de la Suisse Romande, conducted by Ernest Ansermet.

R-LL-884: IBERT Divertissement for Chamber Orchestra, gay and rollicking musical satire, and CHOPIN Les Sylphides—Ballet Music. A brilliant performance by Roger Desormiere conducting L'Orchestre du Conservatoire de Paris.

R-LL-1489: BERLIOZ Symphonie Fantastique. An outstandingly brilliant performance of one of the most fascinating and dynamic symphonies. Eduard van Beinum conducts the Concertgebouw Orchestra of Amsterdam.

R-LL-1494: STRAVINSKY Song of the Nightingale (Symphonic Poem), and Pulcinella Suite. Two impressive examples of contemporary music, excitingly performed by L'Orchestre de la Suisse Romande, Ernest Ansermet conducting.

R-LL-233: RICHARD STRAUSS Till Eulenspiegel, and Don Juan. Two of Strauss' most rollicking symphonic works, conducted by the late great Clemens Krauss and the Vienna Philharmonic. Library must!

R-LL-917: BRITTEN Young Person's Guide to the Orchestra (essential recording!), and Peter Grimes — 4 Sea Interludes and Passacaglia, Van Beinum and the Concertgebouw!

R-LL-1442: TCHAIKOVSKY Symphony No. 3, in stirring frr hi-fi. Sir Adrian Boult and the London Philharmonic. Very limited quantity at this amazing price.

R-LL-1107: MAHLER Symphony No. 1 "Titan", a glorious work we've never before seen at cut prices, Rafael Kubelik and the Vienna Philharmonic!

R-LL-1685: MOZART Les Petits Riens, GRIEG Holberg Suite. These delightful pieces have the perfect sounding board: the Stuttgart Chamber Orchestra under Munchinger!

R-LL-1726: LIGHT-CLASSICAL ORGAN (Hammond) played by the well-known Harry Farmer. 14 great selections including Mexican Hat Dance, Light Cavalry Overture, William Tell Overture, Zampa Overture, Swanee River, Moby Dick, etc. The fi in fi.

R-LL-358: ROSSINI Famous Overtures. Four of Rossini's most famous opera highlights—La Scala di Seta — Semiramide — William Tell — La Gazza Ladra — are superbly performed by Eduard van Beinum conducting the Concertgebouw Orchestra of Amsterdam.

R-LL-1019: HOLST The Planets. A startling contribution to the musical world in 1914, this symphonic suite of contrasting moods is given a brilliant performance by the London Symphony Orchestra conducted by Sir Malcolm Sargent.

R-LL-1600: OPERATIC HIGHLIGHTS FOR ORCHESTRA Gavazzeni conducts the Orchestra of the Maggio Musicale Fiorentino in eight famous operatic highlights by Rossini, Verdi, Bellini, Donizetti, Puccini, Mascagni and Catalani.

R-LL-1556: Wilhelm Backhaus, pianist, performs A CHOPIN RECITAL. Includes six major works and twelve of his Pianoforte Studies. A superb performance.

R-LG-65062: MENDELSSOHN Concerto No. 1 in G Minor for Piano and Orchestra and RICHARD STRAUSS Burleske in D Minor for Piano and Orchestra. Telefunken \$4.98 record. Poldi Mildner, pianist, with the Rias Symphony conducted by Artur Rother.

R-LL-1701: THE MUSIC OF SPAIN, Espana Vol. 6, Tomas Breton's Andalusian Scenes. The picturesque music of Spain in symphonic form. Ataúlfo Argenta conducts Gran Orquesta Sinfonica.

R-LL-1739: THE MUSIC OF SPAIN, Espana Vol. 8, Falla's Concerto for Harpsichord; and El Retablo de Maese Pedro, both with soloists of the National Orchestra of Spain, Ataúlfo Argenta conducting.

R-LL-1740: THE MUSIC OF SPAIN, Espana Vol. 9, dramatic and exciting music of Spain, includes seven works by Vives, Chucua, Barbieri, Usandizaga, and others. Ataúlfo Argenta conducts Orquesta de Camara de Madrid.

R-LL-3291: BRAHMS Concerto for Violin and Orchestra in D major, Op. 77. A sensitive blending of heart and mind, of emotion and intellect, superbly performed by Berl Senofsky with the Vienna Symphony, conducted by Rudolf Moralt.

R-LL-3104: DEBUSSY Twelve Etudes (Books I and II). The last works Debussy wrote for the piano, these studies are rich in the elements of poetry and virtuosity. Hans Henkemann gives a sensitive interpretation on this record.

R-LL-3080: KHACHATURIAN Concerto for Violin and Orchestra. Thomas Magyar, brilliant young violinist, shows the keen rhythmic sense and love of warm, exotic sounds in all of Khachaturian's works. Rudolf Moralt conducts the Vienna Symphony Orchestra.

R-LL-3094: ROBERT SCHUMANN "Etudes Symphoniques", Opus 13 and Fantasia in C Major, Opus 17. Yuri Boukoff, pianist, gives a sparkling performance of this collection of Etudes, and the exciting Fantasia in C Major.

R-LL-1622: BAND OF THE GRENADEIR GUARDS conducted by Major F. J. Harris presents a dynamic Album of Military Band Music. Selections include First Suite for Military Band, Op. 28 (Holst), The Merchant of Venice (Rosse), Three Irish Pictures (Ansell) and Three Dale Dances (Wood).

R-LL-1644: MAMMOTH FAIR ORGAN IN HI FI. A startling escape of rollicking music, clashing cymbals and bells, this great machine happily entertains us with ten selections, full of liveliness and enjoyment.

R-LL-1332: STANLEY BLACK and his Orchestra present Summer Evening Serenade, slow, lingering melodies in a relaxing mood. Included are Melody of Love, Memory, From Here To Eternity, and nine others.

R-G-144: HANDEL The Complete Water Music. This magnificent masterpiece is strikingly performed by the Netherlands Philharmonic Orchestra conducted by Carl Bamberg on this Crowell-Collier Record Guild selection.

R-RG-140: TCHAIKOVSKY Romeo and Juliet, 1812 Overture, and Marche Slave. Three perennial favorites in an inspired and moving performance by the Vienna State Philharmonia, conducted by Jonel Perlea. C-C Guild!

R-G-141: SIBELIUS Finlandia — Prelude to The Tempest — Nightride and Sunrise — Oceanides — Tapiola — five striking selections beautifully performed by Sir Adrian Boult and Philharmonic London. C-C Guild.

R-G-147: BEETHOVEN Piano Concerto No. 4 in G Major, Opus 58 and Sonata No. 26 in E flat major, Opus 81a — "Les Adieux" — two of Beethoven's more beautiful piano works feature the noted Guimaraes Novaes, pianist, with the Porto Musica Symphony of Vienna, Hans Swarowsky. C-C Guild.

R-LC-3052: RICHARD WAGNER, Otto Edelmann, bass, sings selections from Wagner's "Die Meistersinger von Nurnberg," "The Flying Dutchman," "Tannhauser" and "Parsifal." Wilhelm Loibner and Rudolf Moralt conduct the Vienna Symphony Orchestra.

R-LC-3103: RICHARD WAGNER Arias from Lohengrin, Die Meistersinger von Nurnberg, Rienzi, Die Walkure and The Flying Dutchman. All brilliantly sung by Hans Hopf, tenor, with the Vienna Symphony Orchestra, Rudolf Moralt conducting.

R-LC-3076: MOZART Famous concert arias. Waldemar Kmentt, noted tenor, sings six of Mozart's better-known concert arias for solo voice and orchestra. Bernhard Paumgartner conducts the Vienna Symphony Orchestra.

R-LC-3133: BRAHMS Two Sonatas for 'Cello and Piano, Tibor de Machula, cellist, and Timo Mikkila, pianist, give an exceptional performance of the Sonata No. 1 in E Minor, Op. 38 and Sonata No. 2 in F Major, Op. 99.

R-LC-3155: BRAHMS Symphony No. 1 in C Minor, Opus 68. Willem van Otterloo conducts the Hague Philharmonic Orchestra in a powerful performance of one of the most popular symphonies of music-lovers everywhere.

R-LL-1072: LISZT Concertos 1 and 2 for Piano (Kempff) and Orchestra (Fistoulari and the London Symphony). Just a few of these magnificent recordings to sell at this price!

R-LL-1706: BACH Unaccompanied Violin Sonatas 1 and 4, played by the great virtuoso Ruggiero Ricci. Yours for \$1.95 (reg. \$3.98 elsewhere!) while they last!

R-LL-1637: BRAHMS 9 Intermezzi, Ballade in G Minor, Capriccio in B Minor, Rhapsody in B Minor. Need we say more than . . . Backhaus at the piano!

R-LL-1638: BACH English Suite No. 6, French Suite No. 5, Preludes and Fugues 15 and 39. Another sensation Backhaus all piano record — rush your mail order!

in this title this year. With returning lettermen Dwight Moody '59, Louis Nelson '59, Bob Voight '59 and Martin Zimmerman '59, they should be quite well against their toughest opponents, namely, Army, Navy and USCGA. A great boost to the team this year should be returning rifleman Don Vaughn '59 and Dan Schwartz '60.

Coach Bigham is no newcomer to the rifle team. Last season he was assistant coach under Army Master Sergeant Robert Mattson. Having great material to work with this winter, he should produce a top team.

includes such formidable opponents as Boston College, Army, Bates College, University of New Hampshire, and University of Connecticut, the team can be expected to steadily improve under the tutelage of their new mentors, Art Farnham and Al Sotir.

Coaches Art Farnham and Al Sotir both emphasize the fact that there is still ample room on both freshman and varsity squads, notably in frosh field events, for all those interested and willing to workout. They are available every afternoon at Briggs Field.

BELL TELEPHONE COMPANIES

The Bell Telephone Companies offer these fundamentals to hard-working, ambitious realists majoring in the arts, the sciences, business or engineering. Get the whole story regarding telephone careers. Talk with the Bell interviewer when he visits your campus. Ask him about training, advancement opportunities, salary, job security. We think you'll like what you learn.

You can also get information about telephone careers by reading the Bell Telephone booklet on file in your Placement Office.

TRANSITION TRLP-20: WATKINS AT LARGE Doug Watkins, Hank Mobley, Donald Byrd, Kenny Burrell, Duke Jordan and Arthur Taylor swing with five "sides" including Return to Paradise, Phinupi and More of the Same.

TRANSITION TRLP-21: LUCKY THOMPSON The Big Band Sound — Lucky Strikes — with a dazzling dozen selections, including 10 Thompson originals — Quick as a Flash, Still Waters, The Parisian Knight, and others.

TRANSITION TRLP-27: FRANK THORNE Piano Reflections. A lyrical and important new sound in the jazz world is found in the tunes in this album — standards, such as New Orleans, If I Had You, Little Girl Blue, The Girl Friend, and six others played with a comfortable sense of well-being.

JAZZTONE J-1222: JACK TEAGARDEN blows a magnificent horn as only this great trombonist and his band can do on this collection of sounds. Includes 12 greats, among them King Porter Stomp, High Society, Misty, and the Blues, Bad Actin' Woman, Riverboat Shuffle.

JAZZTONE J-1232: DIXIELAND EXPRESS Wild Bill Davison All-Stars play 7 Dixieland dazzers including Thinking of You, When the Saints Go Marching In, etc. The Dixieland Rhythm Kings jazz fest includes Mamma Don't Leave, Riverside Blues, Dirty Bottom Stomp, and 4 other Dixieland doings!

JAZZTONE J-1224: PIONEERS OF BOOGIE WOOGIE Jimmy Yancey puts heart and soul into 7 boogie numbers including the fabulous combination of Death Letter Blues and Midnight Stomp. Cripple Clarence Lofton, a fantastic personality gives an unrestrained and unusual playing of 7 numbers that really move, man!

JAZZTONE J-1230: STAM GETZ You of the "cool school" get with Getz, top tenor sax man of the 50's, and give a listen to 12 terrific Getz showpieces, including Split Kick, Tootsie Roll, Mosquito Knees, For Stompers Only, etc.

JAZZTONE J-1218: LESTER YOUNG and Chu Berry are the featured tenor saxes in this original Commodore 14-hit session with Clayton, Eldridge, Bushkin, and real REAL all stars.

MEV-8241: RUBY BRAFF OCTET with PEE WEE RUSSELL and BOBBY HENDERSON. Features three sensational numbers by the Ruby Braff Octet: It Don't Mean A Thing, These Foolish Things, Oh! Lady Be Good, and four superb piano solos by Bobby Henderson; Honey Suckle Rose, Jitterbug Waltz and others. Top trumpet!

MEV-8238: GIGI SRYCE, DONALD BYRD Jazz Lab., and CECIL TAYLOR Quartet! A beautiful package of ultra modern progressive jazz! Gryce-Byrd Jazz Lab. plays Splitting, Batland, and Love For Sale; Taylor Quartet performs fabulously on Johnny Come Lately, Nena's Blues.

MEV-8237: DON ELLIOTT, EDDIE COSTA, BILL EVANS, ROLF KUHN, MAT MATHEWS and others all featured on this tremendous disk! Songs: I Love You, S'Wonderful, Taking A Chance On Love, I'll Remember April, and many others.

JAZZTONE J-1210: SWINGING WITH RUBY BRAFF, top trumpeter, with a band of his own selection, in a medley of 10 great tunes including I'll Never Be The Same, Only A Blues, Love Me Or Leave Me, Deep River, I'm Shooting High, 'Deed I Do.

JAZZTONE J-1225: MEET BUCK CLAYTON. Buck paces a group of top instrumentalists thru an album recorded in Paris to bring Parisians a sampling of great American jazz. Some of the tunes: West End Blues, Wrap Your Troubles In Dreams, Lazy River, Swingin' With Mezz (Mezz Mezzrow).

JAZZTONE J-1229: MAXINE SULLIVAN singing an album entitled FLOW GENTLY, SWEET RHYTHM, supported by members of the original JOHN KIRBY BAND! Don't miss this one! Includes Rose Room, Molly Malone, Loch Lomond, A Brown Bird Singing, and 7 more.

STORYVILLE STLP-514: ZOOT SIMS QUINTET Features Sims (tenor sax), Bobby Brookmeyer (valve trombone), Hank Jones (piano), Bill Crow (bass) and Jo Jones (drums). The quintet gives with the sounds supreme on all-time greats such as Snake Eyes, Box Cars, I Can't Get Started With You, Lullaby of the Leaves, and others.

STORYVILLE STLP-515: JACKIE & ROY SING! Baby Sing! Jackie sings and Roy plays in a "people are wonderful" mood. Twelve songs here will convince you, they're the greatest together since pie and ice cream!

STORYVILLE STLP-516: WOMEN IN JAZZ Six of the great ladies in jazz presented at their very best — Lee Wiley, Mary Lou Williams, Millie Vernon, Teddi King, Toshiko and Jackie Cain. Women in jazz? Yeah man!

STORYVILLE STLP-517: LEON SASH QUARTET The jazz accordion. Modern sounds in jazz, strikingly mixed by Leon Sash. Nine memorable selections include Sash-ke-bob, Lullaby of Birdland, Deep Purple, and I Can't Get Started.

STORYVILLE STLP-518: TOSHIKO Her Trio, Her Quartet. This gal plays with newly-found enthusiasm, old standards of originals, all have the Toshiko touch — Salute to Shorty, Taking a Chance on Love, All The Things You Are, No Moon at All, and 4 more selections.

STORYVILLE STLP-520: VIC DICKENSON'S Boston Story. The Dickenson trombone, with George Wein (piano), Jimmy Woode (bass), and Buzzy Drootin (drums) swing in A Sentimental Mood, Lover Come Back to Me, All Too Soon, Vic's Boston Story and 8 more tunes.

STORYVILLE STLP-502: SIDNEY ET Jazz at Storyville. Bechet, Vic Dickenson, trombone; Drootin, drums; Jimmy Woode and George Wein, piano, give the mellow sounds at an on-location recording at Boston's Storyville Blues, C Jam Blues, Rhythm, Lady Be Good, etc.

STORYVILLE STLP-503: TEDDY SINGS This gal "sings" man how. A dozen jazz tunes, including Fools Fall in Love, This Is All You Turned the Tables on Me.

STORYVILLE STLP-505: JOE NEW TRUMPET and the boys master mood of melody in this cool collection of 10 "sides" including Easy on the Sun, My Blue Heaven, King and Joe's own I Feel Like a New

STORYVILLE STLP-506: MESSIAEN IN MONTEMARTE with Lou Williams (piano), Don (tenor sax), Alvin Banks (bass), Dave Pochnon (drums) and as Rip side we have Alix Combail

STORYVILLE STLP-507: ZOOT SIMS BOBBY BROOKMEYER TONITE! A Today. You've heard Barry recite Hamlet, and seen Pa. dance, now hear Zoot Sims sing. . . 8 great jazz selections including Zoot's Tune, Blue S and Blues.

STORYVILLE STLP-508: RUBY B. HUSTLIN' and Bustin' with the trumpet sound. A mad mixture moods, 10 in all, from the bang Ad Lib Blues to the me When It's Sleepy Time Down St.

STORYVILLE STLP-509: PEE RUSSELL We're In The Money, featuring the Russell clarinet, Wild Davison (trumpet) and Vic Dickenson (trombone). The men move Lulu's Back in Town, Sweet Get Brown, Sugar, Sweet and Low, seven other swinging sides.

STORYVILLE STLP-510: INTRODUCE MILLI VERNON a great lady of jazz. Sings with a mood subdued and tensely moving. Milli mingles Moon Ray, Blue Rain, This Year's Kisses, Moments Like This, and more.

STORYVILLE STLP-511: LEE WILSON and ELLIS LARKINS in Piano Solos.

STORYVILLE STLP-511: LEE WILSON and ELLIS LARKINS in Piano Solos in Dialogue. Miss W sings 8 Rodgers & Hart songs, a husky, erotic warmth here and Ellis Larkins' piano solos punctuate these charming moments of music.

STORYVILLE STLP-512: THE TOSHIO TRIO Toshiko at the piano, Ed Thigpen on the drums and Chamber, bass, present 9 nifty bers in Toshiko style. Includes Between Me and Myself, Manha Address, Kyo-shu (Nostalgia) — 3 other Toshiko originals.

STORYVILLE STLP-513: ELLIS LARKINS in an ELLINGTON MOOD are 11 Ellington classics, including super by Ellis Larkins. Includes the great Mood Indigo, I'm Gonna Get to the Bottom of This, and others.

JAZZTONE J-1209: BILLIE HOLIDAY SINGS an unforgettable group, inally recorded at the peak of career: I Gotta Right To Sing Blues; Lover Come Back To Me; braceable You; 14 in all, the choicest, most poignant music. The best LP she's ever made, according to this reporter!

R-LL-1745: GERSHWIN'S RHAPSODY IN BLUE featuring Winifred Atwell on the keys, Ted Heath's orchestra. Plus Gershwin's most memorable hits including Love Walked In, Summertime, S' Wonderful, Somebody Loves Me. This great disc belongs in your record collection!

lineup for tomorrow's encounter has been announced. Ted Schultz '59 will represent the Engineers in the 123-lb. class. Andy Bulfer '61, second in New England in the 130-lb. division as a freshman last spring, is one of the brightest spots on the roster. Another is Dave Latham '61, who was third best 137-pound frosh in NE. The 147-lb. post has not been definitely decided yet, but as we go to press, it appears that the MIT grappler will be either Jim Gross '61 or Jim Wishart '59. At 157 lbs., John Sullivan '61 will take on the Tufts grappler in this class. Reed Freeman '61, a mainstay of last season's yearling aggregation, will compete in the 167-lb. class. Moving up, Bob

wrestling, there is a serious lack of manpower in the lowest three weight classes. Coach James Maloney is quite concerned about these open positions. To date, the only probable starters for tomorrow's match with the Jumbo freshmen that are known are in the upper weight divisions. Max Snodderly will see action in the 147-lb. class. In the next higher division, Tech will be represented by Greg Brown. Dick Shirley and Paul Olmstead are both hopeful of gaining the 167-lb. spot. In the unlimited battle, it looks like Bob Sharp will be the Beaver grappler.

Both squads will have their home openers next Friday night at the Rockwell Cage with Wesleyan.

Different facets of the space age will be discussed Tuesday, December 9, in a colloquium sponsored by the Political Science Section of the Economics Department, "Industrial, Government, and Private Organizations Involved in the Development of Space Technology." The discussion will be open to the public.

RETARDED CHILDREN

The Greater Boston Foundation for Retarded Children has asked MIT for help. Donation containers distributed during their drive to stores in this area must be collected Saturday, December 6. If interested in helping, contact TCA, Ext. 885.

NEW, LOW-COST 2-STATION INTERCOM

LIST \$17.95 **\$12.90**
Order No. R-9810

A famous make intercom system for less than \$15.00 is rare enough... but this system is even more astonishing! You're getting a sensitive, powerful and COMPLETE 2-way system — master and remote — that gives you all of the time-saving, step-saving conveniences of costlier units! Master has a separate "press-to-talk" switch. Remote can answer calls from a distance; it is always "open" to serve as an "electronic baby-sitter". Also perfect for offices, nurseries, farms, warehouses, sickrooms, schools, etc. U/L Approved. 6 1/2" x 3 3/4" x 4 1/2" H. all metal cabinets attractively finished in ivory enamel; complete with 50-ft. cable. Ship. wt. 6 1/2 lbs.

How vu people w neighbor held in h in love seen Peo rare and The day distraught offhand, to order kind of l fashionat hard to c round be Gunsby s were sud of beer!" Two orch when Peo songs tha way thro found G out over his name. and the topped l spilled to lay froze Peony sa word was a silver bell sounding a note that no one else had ever heard before. "Good heavens," Gunsby said, "this isn't my Peony Warren, old boy. Never saw her before in my life!" We stood there a long moment, completely vulnerable, brought to bay by a pack of dreams. Then Gunsby made a pathetic little bow and strode away. "How sad," Peony said lightly, taking a golden glass of Schaefer from a golden tray. "Can't we play some games now?" I stared at her, appalled by all things shallow and beautiful. After a time I found Gunsby, paddling morosely round and round on a rubber raft in his pool. He was all alone. I raised my glass of Schaefer to him and whispered, "The poor guy. The poor, vulnerable guy."

The tentative calendar and lineup for tomorrow's encounter has been announced. Ted Schultz '59 will represent the Engineers in the 123-lb. class. Andy Bulfer '61, second in New England in the 130-lb. division as a freshman last spring, is one of the brightest spots on the roster. Another is Dave Latham '61, who was third best 137-pound frosh in NE. The 147-lb. post has not been definitely decided yet, but as we go to press, it appears that the MIT grappler will be either Jim Gross '61 or Jim Wishart '59. At 157 lbs., John Sullivan '61 will take on the Tufts grappler in this class. Reed Freeman '61, a mainstay of last season's yearling aggregation, will compete in the 167-lb. class. Moving up, Bob

wrestling, there is a serious lack of manpower in the lowest three weight classes. Coach James Maloney is quite concerned about these open positions. To date, the only probable starters for tomorrow's match with the Jumbo freshmen that are known are in the upper weight divisions. Max Snodderly will see action in the 147-lb. class. In the next higher division, Tech will be represented by Greg Brown. Dick Shirley and Paul Olmstead are both hopeful of gaining the 167-lb. spot. In the unlimited battle, it looks like Bob Sharp will be the Beaver grappler. Both squads will have their home openers next Friday night at the Rockwell Cage with Wesleyan.

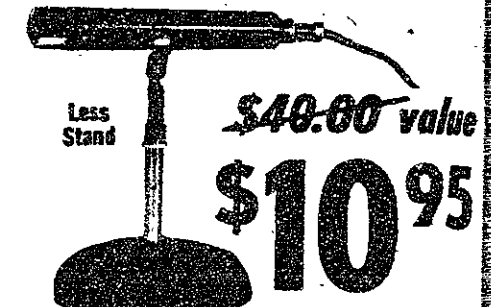

Different facets of the space age will be discussed Tuesday, December 9, in a colloquium sponsored by the Political Science Section of the Economics Department, "Industrial, Government, and Private Organizations involved in the Development of Space Technology." The discussion will be open to the public.
RETARDED CHILDREN
The Greater Boston Foundation for Retarded Children has asked MIT for help. Donation containers distributed during their drive to stores in this area must be collected Saturday, December 6. If interested in helping, contact TCA, Ext. 885.

MONAURAL 2-FONE HEADSETS

**ARCHER HI-FI CRYSTAL HEADSET FOR
AUDIOPHILES, HAMS! 70-7000 CPS**

\$1.49

Reg. Net **\$8.50** "MONITOR
QUALITY"

- Weighs Less Than ONE Ounce!
- With Miniature Plug, Jack!

NEW! EXCLUSIVE AT RADIO SHACK! Weighing UNDER 1 oz. net, this fully-adjustable headset
may be used in place of all conventional (and cumbersome) high-impedance phones — for tape recorder
monitor, private listening via shortwave and ham radios, dictation, in-bed listening to radio or music,
numerous other applications. Beside its fatigue-free weight factor, this fine new Archer audio product
offers fabulous CRYSTAL wide-range 70-7000 cps frequency response — far beyond the reach of good
magnetics, and challenging even that of receivers selling for 4-6 times our price. Complete with super-fine
1/8" cord and miniature plug and jack. Imported to save you \$22. Note: ear-tubes hinged to spread for
custom fit, wear "under chin" like Telex-type headsets! Ship. wt. 3/4 lb.
Order No. R-8241 Headset, Jack and Plug.

MAGNETIC—10 OHMS

50—14,000 cps **\$1.98**

\$10.95 Value

Radio Shack's exclusive and modern Archer headset
provides the EXCELLENT FIDELITY wanted in
monaural units! New style is popular for every
phase of communications replacing the out-dated,
cumbersome headsets used in days of old. Sound is
directed from precision 3/4" dia. speaker through
clear plastic sleeves to specially-engineered ear plugs.
Freq. resp: 50-14,000 cps with 10 impedance at 1 kc.
Applications: hospitals, group hearing systems,
radio amateurs, broadcast stations for cueing and
mixing, record listening, lab test equipment, beauty
salons, dental offices, etc.
Order No. R-4401 Ship. wt. 6 ozs.

STEREO 2-FONE HEADSETS

CRYSTAL DUAL—70K

\$1.99

\$15.95 Value

★ Archer brand defies competition!
★ Highest Quality, lowest price!

Versatile headset does triple-duty: Handles stereo-
phonic sound, monaural sound, and with phones
in parallel permits twice the volume of usual single
phone monaural! Response 70 to 15,000 cps. Im-
pedance of 70K at 1 kc. Featherweight and com-
fortable. Removable plastic ear inserts. Phone-plugs
on each cord. Stethoscope style, pivots to give exact
fit to wearer. Radio Shack's own Archer brand;
value unmatched on this planet.
Order No. R-7010 Ship. wt. 6 ozs. \$1.99

**MAGNETIC DUAL
—10 OHM**

\$2.49

\$19.98 Value

Entirely new concept designed by Radio Shack's
engineering staff for IMPROVED STEREO! It's the
only headset of its kind in the world featuring
MATCHED DUAL 10-OHM REPRODUCERS for
the important millisecond stereo understanding!
Both magnetic reproducers are located at the "Y"
of the neck and connected with 2 sets of cords with
separate plug-in attachments! Ear tips are removable
for sterilizing for multi-person use. Weighs about
1 1/2 ozs. Frequency response 40-16,000 cps. It's a
positive "must" for the hi-fi stereo devotee.
Order No. R-7008 Ship. wt. 6 ozs.

win this title this year. With return-
ing lettermen Dwight Moody '59,
Louis Nelson '59, Bob Voight '59 and
Martin Zimmerman '59, they should
be quite well against their toughest
opponents, namely, Army, Navy and
USCGA. A great boost to the team
this year should be returning rifle-
man Don Vaughn '59 and Dan
Schwartz '60.
Coach Bigham is no newcomer to
the rifle team. Last season he was
assistant coach under Army Master
Sergeant Robert Mattson. Having
great material to work with this
winter, he should produce a top team.

includes such formidable opponents
as Boston College, Army, Bates Col-
lege, University of New Hampshire,
and University of Connecticut, the
team can be expected to steadily im-
prove under the tutelage of their
new mentors, Art Farnham and Al
Sotir.
Coaches Art Farnham and Al Sotir
both emphasize the fact that there
is still ample room on both fresh-
man and varsity squads, notably in
fresh field events, for all those in-
terested and willing to workout. They
are available every afternoon at
Briggs Field.

SKILLMAN SPEED-MASTER "BUG"

How vu people w neighbor held in h in love seen Pec rare and The day distraugl offhand, to order kind of fashiona hard to c round be Gunsby : were sud of beer!"

Two orcl when Pe songs the way thrc found G... out over his name. and the topped t spilled to lay froze Peony sa

word was a silver bell sounding a note that no one else had ever heard before. "Good heavens," Gunsby said, "this isn't my Peony Warren, old boy. Never saw her before in my life!" We stood there a long moment, completely vulnerable, brought to bay by a pack of dreams. Then Gunsby made a pathetic little bow and strode away.

"How sad," Peony said lightly, taking a golden glass of Schaefer from a golden tray. "Can't we play some games now?" I stared at her, appalled by all things shallow and beautiful. After a time I found Gunsby, paddling morosely round and round on a rubber raft in his pool. He was all alone. I raised my glass of Schaefer to him and whispered, "The poor guy. The poor, vulnerable guy."

lineup for tomorrow's encounter has been announced. Ted Schultz '59 will represent the Engineers in the 123-lb. class. Andy Bulfer '61, second in New England in the 130-lb. division as a freshman last spring, is one of the brightest spots on the roster. Another is Dave Latham '61, who was third best 137-pound frosh in NE. The 147-lb. post has not been definitely decided yet, but as we go to press, it appears that the MIT grappler will be either Jim Gross '61 or Jim Wishart '59. At 157 lbs., John Sullivan '61 will take on the Tufts grappler in this class. Reed Freeman '61, a mainstay of last season's yearling aggregation, will compete in the 167-lb. class. Moving up, Bob

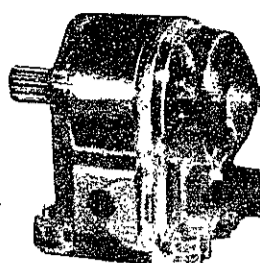

MAKES IDEAL GIFT!

WILSON "TINY ATOM" REVERSIBLE MOTOR

Reg. \$5.50

- Complete with Brass Pinion
- Works off Flashlight Batt
- Size 1" x 1 1/4" x 1 1/2" H.

lineup for tomorrow's encounter has been announced. Ted Schultz '59 will represent the Engineers in the 123-lb. class. Andy Bulfer '61, second in New England in the 130-lb. division as a freshman last spring, is one of the brightest spots on the roster. Another is Dave Latham '61, who was third best 137-pound frosh in NE. The 147-lb. post has not been definitely decided yet, but as we go to press, it appears that the MIT grappler will be either Jim Gross '61 or Jim Wishart '59. At 157 lbs., John Sullivan '61 will take on the Tufts grappler in this class. Reed Freeman '61, a mainstay of last season's yearling aggregation, will compete in the 167-lb. class. Moving up, Bob

wrestling, there is a serious lack of manpower in the lowest three weight classes. Coach James Maloney is quite concerned about these open positions. To date, the only probable starters for tomorrow's match with the Jumbo freshmen that are known are in the upper weight divisions. Max Snodderly will see action in the 147-lb. class. In the next higher division, Tech will be represented by Greg Brown. Dick Shirley and Paul Olmstead are both hopeful of gaining the 167-lb. spot. In the unlimited battle, it looks like Bob Sharp will be the Beaver grappler. Both squads will have their home openers next Friday night at the Rockwell Cage with Wesleyan.

Different facets of the space age will be discussed Tuesday, December 9, in a colloquium sponsored by the Political Science Section of the Economics Department, "Industrial, Government, and Private Organizations Involved in the Development of Space Technology." The discussion will be open to the public.

RETARDED CHILDREN

The Greater Boston Foundation for Retarded Children has asked MIT for help. Donation containers distributed during their drive to stores in this area must be collected Saturday, December 6. If interested in helping, contact TCA, Ext. 885.

BULK RATE U.S. POSTAGE PAID York, Pa. Permit No. 1474

RADIO SHACK CORP. 730 Commonwealth Avenue, Boston 17, Mass.

lineup for tomorrow's encounter has been announced. Ted Schultz '59 will represent the Engineers in the 123-lb. class. Andy Bulfer '61, second in New England in the 130-lb. division as a freshman last spring, is one of the brightest spots on the roster. Another is Dave Latham '61, who was third best 137-pound frosh in NE. The 147-lb. post has not been definitely decided yet, but as we go to press, it appears that the MIT grappler will be either Jim Gross '61 or Jim Wishart '59. At 157 lbs., John Sullivan '61 will take on the Tufts grappler in this class. Reed Freeman '61, a mainstay of last season's yearling aggregation, will compete in the 167-lb. class. Moving up, Bob

wrestling, there is a serious lack of manpower in the lowest three weight classes. Coach James Maloney is quite concerned about these open positions. To date, the only probable starters for tomorrow's match with the Jumbo freshmen that are known are in the upper weight divisions. Max Snodderly will see action in the 147-lb. class. In the next higher division, Tech will be represented by Greg Brown. Dick Shirley and Paul Olmstead are both hopeful of gaining the 167-lb. spot. In the unlimited battle, it looks like Bob Sharp will be the Beaver grappler.

Both squads will have their home openers next Friday night at the Rockwell Cage with Wesleyan.

Different facets of the space age will be discussed Tuesday, December 9, in a colloquium sponsored by the Political Science Section of the Economics Department, "Industrial, Government, and Private Organizations Involved in the Development of Space Technology." The discussion will be open to the public.

RETARDED CHILDREN

The Greater Boston Foundation for Retarded Children has asked MIT for help. Donation containers distributed during their drive to stores in this area must be collected Saturday, December 6. If interested in helping, contact TCA, Ext. 885.

WINTER ATHLETIC SEASON OPENS

Intent on improving their record, the Beaver ice sextet is working hard in pre-season sessions. Above, a hard shot is stopped.

Pucksters Meet Cadets Tomorrow Face Cornell, Hamilton Next Week

A big, hard checking West Point team will furnish the competition for the varsity hockey team tomorrow when they open their season seeking their first win in two years. Next week the Beavers travel to western New York State where they'll take on Cornell and Hamilton.

This year the Engineers will face substantially the same opposition that handed them fourteen losses without a success last winter. However, a few teams such as Worcester Polytechnic Institute and Holy Cross, which are more in MIT's class, have been added to the schedule.

Leading Tech's varsity aggregation will be co-captains George Peckington '59 and William Jobin '59. George, who has won two varsity letters and is considered the smoothest player on the squad, will start at one wing. Bill, a very aggressive player, who played outstanding hockey last year, will probably play forward.

Starting at the other wing will be George Kirk '60, a boy with a very long outside shot. The forward line will be completed with the accurate arm of George Lerner '60. The defensive line will feature Larry Lerner '59, a small but aggressive Canadian, and 6' 2" John Weisbuck.

Beaver Rifle Squad Wins Six In A Row

Forecasts are very good for the MIT team for the coming season. Under the able leadership of Coach Marine Master Sergeant James Bigman, the squad has gotten off to a fast start by winning its first six matches, downing Wentworth, Tufts, Dartmouth, U. of Vermont, Harvard and St. Michaels. Outstanding in these opening contests has been returning veteran Dwight Moody '59.

With four lettermen returning, plus another senior, five juniors and two sophomores, the team should be a threat to any squad in the New England area. Last year the sharpshooters were off to a slow start in the Boston area, but showed improvement on their first road trip.

Placing sixth in the N.E.R.C.L. finals last year, the Engineers should win this title this year. With returning lettermen Dwight Moody '59, Louis Nelson '59, Bob Voight '59 and Martin Zimmerman '59, they should do quite well against their toughest opponents, namely, Army, Navy and USCGA. A great boost to the team this year should be returning rifleman Don Vaughn '59 and Dan Schwartz '60.

Coach Bigman is no newcomer to the rifle team. Last season he was assistant coach under Army Master Sergeant Robert Mattson. Having great material to work with this winter, he should produce a top team.

'59. Sid Altman '60, another Canadian, will probably start at goalie.

Paul Ekberg Back

Paul Ekberg '58 will be back to bolster the team after the fourth game. Paul, injured in the fourth game last year, missed most of the season. His eligibility has been extended and it is expected that his strong game will help pick up Tech at midseason.

Completing the roster will be Nick Alter '61, Walter Cluett '61, Barry Fergesen '60, Charles Heinrich '61, William Jarman '61, Sidney Magee '61, David Perry '60, Herbert Priluck '59, Robert Rein '61, Dail Rhee '60, William Scanlon '61, Henry Schleinert '61, James Seppala '61, and Daniel Stebbins '61.

Indoor Track Starts Next Week With BC Team Spirit Strong

Showing their strength mainly in the sprints and jumping events, the varsity track team opens its season on December 13, a week from tomorrow at 1:15 p.m. on Briggs Field against Boston College.

Five lettermen are returning from last year's squad: Captain Bill Nicholson '60, Bob Williamson '59, John Maier '59, Jim Long '60, and Nate Lisakov '60. These will form the nucleus of a roster composed mainly of sophomores and juniors.

Short on experience though long on spirit, the caliber of the squad is an unknown quantity. With varsity veterans Williamson, Murray, Maier, and last year's yearling stars, Davis, McConnell, and Morrison, show its power in sprints, hurdles, and jumps. The team potential in the middle distances is unknown; its weakness will be in the long distances and weights. All of the 1000-yard runners are new to the event, while the five-milers and two-milers, all sophomores, lack varsity experience.

Esprit de corps is the watchword of the varsity group, with all of its members exhibiting the same élan which characterized the cross country team. Although their schedule includes such formidable opponents as Boston College, Army, Bates College, University of New Hampshire, and University of Connecticut, the team can be expected to steadily improve under the tutelage of their new mentors, Art Farnham and Al Sotir.

Coaches Art Farnham and Al Sotir both emphasize the fact that there is still ample room on both freshman and varsity squads, notably in frosh field events, for all those interested and willing to work out. They are available every afternoon at Briggs Field.

Outstanding Season Seen For Fencers

With nine lettermen returning, prospects for this year's MIT Varsity Fencing Team are outstanding. They hope to equal or better the '57-'58 season which was a great one. It consisted of eight victories in 10 dual meets and a second place in the N. E. Invitational Conference. In this event, MIT's Capt. Barrie Shabel '59 placed first and Sherman Karp '60 placed third in the Individual foil. Both men are returning and look forward to another outstanding tour.

Other returning lettermen who should render excellent support are foilman Jerry Yarborough '60, sabreman Larry Campbell '59, Karl Koepke '60, Joe Verdeber '60 and epeemen Joe Pedlosky '59, Ron Wempen '59 and Charles Haspel '60.

These men are being backed up by their superior fencing master, Silvio Vitale. His fencing titles include Foil, Sabre, Duelling Sword, and three weapons.

The circuit opens tomorrow with a match here at Tech against Bradford Durfee of Fall River, Mass. After defeating them last year by a score of 19-8, the Engineers look forward to an easy victory. With the strongest fencing squad ever seen at MIT, this year's duellers should have nothing short of a victorious season.

Squash Team Should Improve; Five Lettermen Return To Action

Sparked by five returning lettermen and several strong additions from last year's freshmen, the squash team this year will be "considerably improved", according to Coach Ed Crocker. The Dartmouth Indians, who trounced the Crockermen last year should not be so triumphant in the opener at Hanover tomorrow.

Farid Saad '61, of Cairo, Egypt, will take on the Indians' number two ranking intercollegiate Red Hoehn in the number one slot.

Colin Clive '60, the captain, moves from number three to number two this year. Clive, who has been gaining experience in the MSRA "A" League this season, shows considerable improvement in adapting himself from the British game. Raul Karman '61, last year's Freshman Athlete of the Year, was the number two ranking undergraduate squash player. Although this is only his second year at the game, Karman can do quite well.

Jack Klapper '61, playing number four this year, has shown improvement over more experienced players and has won several MSRA "B" League sets. Bob Hodges '60, and John Beckett '60, who will play five and six are both returning lettermen. Their chances look quite good since

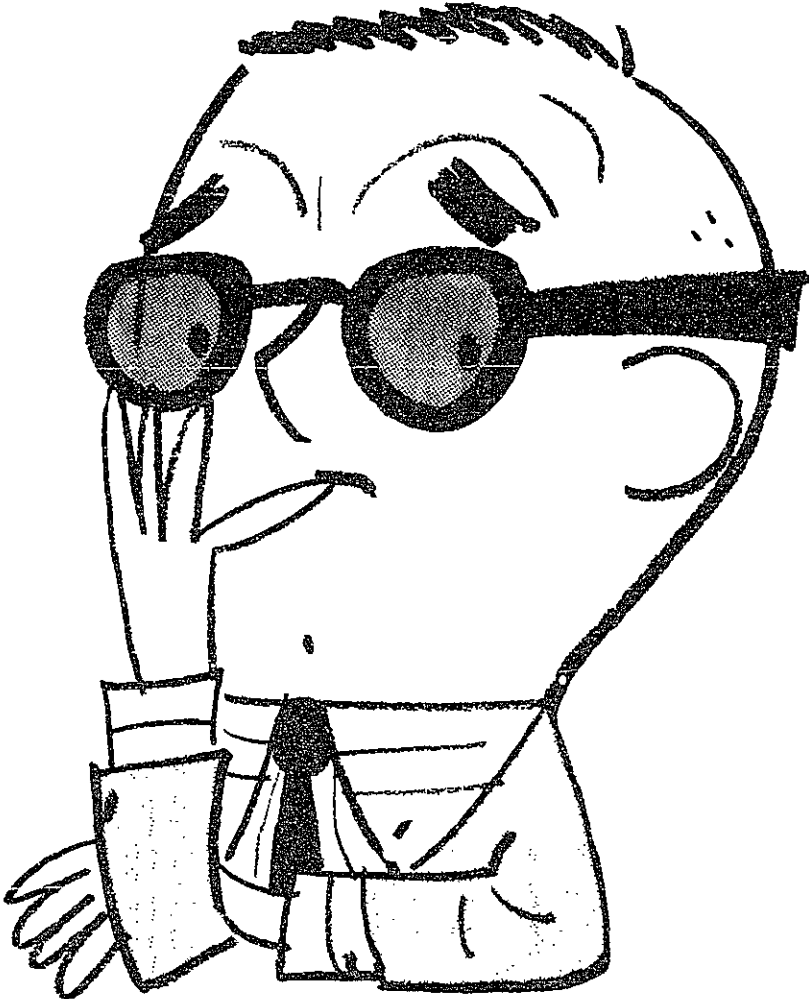

Dartmouth has only three returning lettermen.

Loutfy ElSherbiny '61, like Saad a veteran of Egyptian courts, has been playing a tough game in MSRA competition. Jim Pennypacker '60 and John Priest '60, the two remaining lettermen should be able to use their experience at eight and nine to give the team the needed depth to make a good showing against the Indians.

Pistolmen Win

The varsity pistol team continued their winning ways in the Greater Boston Pistol League by topping Saugus 1018-1006 just before Thanksgiving at the home range. With two victories under their belts, the Techmen have sixteen GBPL matches ahead, and prospects look bright for repetition of their class "B" championship which they copped easily last winter.

High scorer for the Beavers in the Saugus event was team captain Tom Remmers '60 who fired a 262. Jim Von Benken '60 was second for the victors with 256. Shooting 250's were Sheldon Michaels '61 and Dennis Kelly '60.

Ever meet a pessimist?

He sees the world through dark glasses. He just knows that he'll wind up in a job he doesn't like, that he'll be underpaid, that he'll get lost in the crowd. But realistic men know these things depend largely on their own decision in choosing a career.

Realistic men look for companies that provide sound training, advancement opportunities, challenging work, stimulating associates and good pay. These are the fundamentals that insure success and progress in a career.

The Bell Telephone Companies offer these fundamentals to hard-working, ambitious realists majoring in the arts, the sciences, business or engineering. Get the whole story regarding telephone careers. Talk with the Bell interviewer when he visits your campus. Ask him about training, advancement opportunities, salary, job security. We think you'll like what you learn.

You can also get information about telephone careers by reading the Bell Telephone booklet on file in your Placement Office.

AiResearch Divisions

will be on campus to interview

ENGINEERING STUDENTS

B.S. - M.S. - Ph.D. candidates

The Garrett Corporation is one of the most diverse research, engineering and manufacturing organizations in the aircraft, missile and technological fields.

From AiResearch laboratories have come pioneer developments in aircraft and missile components and systems. Today 90% of the free world's aircraft use AiResearch equipment.

Garrett divisions and subsidiaries are creating a variety of products, including

• TYPICAL PROJECT ACTIVITIES •

Electronic air data computers, pressure ratio transducer instruments, electrical systems and motors and generators.

Preliminary design from analytical and theoretical considerations for high-level technical work in aerodynamics, stress analysis, thermodynamics, heat transfer, cryogenics, pneumatics, nuclear power and mathematics.

Auxiliary power units and control systems for

industrial turbochargers and marine equipment, and are supplying sales and service to airframe companies, airlines and the military.

Project work is conducted by small groups in which individual effort is more quickly recognized and opportunities for learning and advancement are enhanced.

With company financial assistance, you can continue your education at fine neighboring universities.

• ORIENTATION PROGRAM •

In addition to direct assignments, an eight-month orientation program is available to aid you in job selection. You participate in Garrett project and laboratory activities

and work with engineers who are outstanding in their fields. Your orientation will include familiarization with sales and contract administration.

Debaters Attend 43 School Meet

The MIT Debating Team sent two units to the 15th Annual Invitational Debate Tournament at the University of Vermont two week-ends ago. Two coaches, Arthur Olsen and Peter O'Hara, accompanied the team.

The Varsity Unit was composed of Wayne Hayden and Richard Smith for the affirmative and Ray Wilkins and Dan Laufer for the negative. The affirmative side won four bouts and lost one, while the negative split with a two-three score.

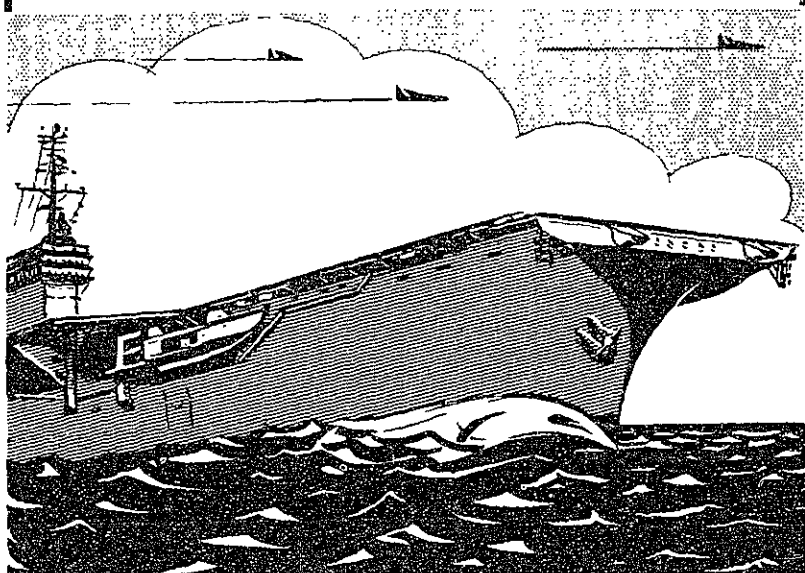

A novice unit with an affirmative team of Philip Hauptman and James

Ross and a negative side of Francis Berlandi and Bernard Khoury competed in a Novice Meet. The affirmative team won three and lost two; the negative had two wins and three losses.

The Varsity with their six-four record, placed 14th out of 43 schools, while the Novice Team tied for 18th place out of the 37 schools.

The subject of the debate was the standard topic of the year: Resolved: that we should prohibit the further development of nuclear weapons by international agreement.
